DIGEST

SB 86 Original

2021 Regular Session

Foil

Proposed law requires the governing authority of each public school, including charter schools, to adopt policies relative to the installation and operation of cameras that record both video and audio in classrooms, upon the written request of a student's parent or legal guardian.

Proposed law defines "classroom" as a self-contained classroom or other special education setting in which a majority of students in regular attendance are provided special education and related services and are assigned to one or more self-contained classrooms or other special education settings for at least 50% of the instructional day and for which a parent or legal guardian has requested a camera to be installed. Further provides the definition of "classroom" does not include classrooms and other special education settings where the only students with exceptionalities who are receiving special education and related services are those who have been deemed to be gifted or talented and who have not been identified as also having a disability.

Proposed law requires the policies to include provisions for the following:

- (1) The location and placement of cameras, including a prohibition against recording restroom interiors or other areas in which clothing may be changed or removed.
- (2) Written notice of the placement of the cameras be provided to persons who enter the classroom, including teachers and other school employees, students in the classroom, the students' parents or legal guardians, and authorized visitors.
- (3) Training on the proposed law for any teacher or other school employee who provides services in a classroom with an installed camera.
- (4) The retention, storage, and disposal of the audio and video data recorded, including a requirement that recordings be retained for at least one month from the date of the recording.
- (5) Protecting student privacy and determining to whom and under what circumstances the recordings may be disclosed, including limiting viewing of the recordings to the superintendent or his designee and the parent or legal guardian of a recorded student upon request; requiring redaction of recordings of students other than the requestor's child; and requiring any person who views a recording and who suspects the recording includes a violation of law to report the suspected violation to the appropriate law enforcement agency.
- (6) Requiring each camera installed to comply with national fire safety standards.
- (7) Procedures for the approval or disapproval of a request for the installation and operation of

cameras in a classroom.

Proposed law provides that recordings made pursuant to proposed law shall be confidential and shall not be public records but may be viewed by the superintendent or his designee, by the parent or legal guardian of a recorded student, or by law enforcement as provided in the policies required by proposed law.

Present law (R.S. 17:3914) prohibits school officials and employees from sharing a student's "personally identifiable information", defined, in part, as information about an individual that can be used to identify, contact, or locate him.

Proposed law retains present law but provides that recordings made pursuant to proposed law shall not be considered "personally identifiable information".

Proposed law authorizes the governing authority of each public elementary and secondary school to accept, administer, and make use of federal, state, and any local and private appropriations, any public and private grants and donations, and, when it is deemed appropriate and feasible, to accept nonmonetary funding in the form of services or equipment for use in connection with the installation and operation of the cameras.

Proposed law requires the state Department of Education to assist each school governing authority in identifying funding which may be available to assist in the installation and operation of the cameras.

Proposed law provides the implementation of proposed law is subject to the appropriation of funds.

Effective upon signature of the governor or lapse of time for gubernatorial action.

(Amends R.S. 44:4.1(B)(9); adds R.S. 17:1948 and 3996(B)(59))
