**EXPENDITURE EXPLANATION**

There is no anticipated direct material effect on governmental expenditures as a result of this measure. The proposed law provides that health insurance issuers (including their Pharmacy Benefit Manager) must include any cost-sharing amounts paid by the enrollee or on behalf of the enrollee when calculating an enrollee's contribution. The proposed law requires the Commissioner of the LA Department of Insurance (LDI) to implement provisions of cost-sharing practices of this measure. LDI reports that it is capable of handling any workload impact arising from the proposed law with existing budgetary and personnel resources.

The Office of Group Benefits (OGB) reports that they do not use the cost-sharing practices being prohibited under this measure. Under OGB's five self-insured health plans, drug manufacturer coupons are fully counted towards the members' cost-sharing obligations - the deductible and the maximum out-of-pocket limits.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
