AN ACT

To enact Part XIII of Chapter 5-B of the Louisiana Revised Statutes of 1950, to be comprised of R.S. 40:1125.1 through 1125.4, relative to perinatal mental health policy; to provide for furnishing of certain information by hospitals and birthing centers that provide labor and delivery services; to provide for perinatal mood disorder screening; to provide for treatment; to provide for collaborative care; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. Part XIII of Chapter 5-B of the Louisiana Revised Statutes of 1950, comprised of R.S. 40:1125.1 through 1125.4, is hereby enacted to read as follows:

Part XIII. PERINATAL MENTAL HEALTH POLICY

§1125.1. Short title

This Part shall be known and may be cited as "The Perinatal Mood and Anxiety Disorders Act".

§1125.2. Awareness

In accordance with this Part, all hospitals and birthing centers that provide labor and delivery services shall, prior to discharge following pregnancy, provide pregnant women and their family members information about postpartum depression, including its symptoms, treatment, and available resources. The Louisiana...
Department of Health bureau of family, in cooperation with the office of behavioral
health, shall make such information available to hospitals and birthing centers and
shall include this information on the department's website.

§1125.3. Screening for postpartum or related mental health disorders

A. Healthcare providers who provide postnatal care to women up to twelve
months following the birth shall screen for the signs and symptoms of postpartum
depression or related mental health disorders through a validated screening tool in
accordance with the recommendations from the American College of Obstetricians
and Gynecologists if in the exercise of their professional, medical judgment the
healthcare providers believe that such screening would be in the best interest of the
patient.

B. Upon the consent of the caregiver, a healthcare provider who is providing
pediatric care to an infant shall screen the caregiver for postpartum depression or
related mental health disorders in accordance with the recommendations of the
American Academy of Pediatrics if in the exercise of his professional medical
judgment the healthcare provider believes that such screening would be in the best
interest of the patient. Screenings pursuant to this Subsection shall not create either
a physician-patient relationship between the healthcare provider and the caregiver
or any continuing obligation to provide medical services or referral by the healthcare
provider.

§1125.4. Treatment; access to perinatal mental health providers

The Louisiana Department of Health shall work with the Medicaid managed
care organizations to do the following:

(1) Identify providers who specialize in pregnancy-related and postpartum
depression or related mental health disorders and pregnancy-related and postpartum
substance use disorders, which are searchable by location.

(2) Develop network adequacy standards for treatment of pregnant and
postpartum women with depression or related mental health disorders and pregnant
and postpartum women with substance use disorders.

HB 784 Engrossed 2022 Regular Session Duplessis

Abstract: Establishes the Perinatal Mood and Anxiety Disorders Act to improve awareness, screening, and treatment of perinatal mood and anxiety disorders.

Proposed law provides for awareness of all hospitals and birthing centers that provide labor and delivery services.

Proposed law provides that a healthcare provider who is providing pediatric care to an infant shall screen the caregiver for postpartum depression or related mental health disorders if he believes in the exercise of his professional judgment that such screening would be in the best interest of the patient.

Present law provides that perinatal mood and anxiety disorder screening shall not create either a physician-patient relationship between the healthcare provider and the caregiver or any continuing obligation to provide medical services.

Proposed law requires the La. Dept. of Health office, in collaboration with Medicaid-managed care organizations, to identify providers who specialize in pregnancy-related and postpartum depression or related mental health disorders and substance use disorders.

Proposed law requires the La. Dept. of Health office, in collaboration with Medicaid-managed care organizations, to develop network adequacy standards for treatment of pregnant and postpartum women with depression or related mental health disorders and substance use disorders.

(Adds R.S. 40:1125.1-1125.4)

Summary of Amendments Adopted by House

The Committee Amendments Proposed by House Committee on Health and Welfare to the original bill:

1. Provide that a pediatric healthcare provider who provides care to an infant shall screen the caregiver of the infant for postpartum depression or related mental health disorders if he believes that such screening is in the best interest of the patient.

2. Provide that perinatal mood and anxiety disorder screening shall not create a physician-patient relationship nor shall such screening create any continuing obligation to provide medical services.

3. Require the La. Dept. of Health to collaborate with Medicaid-managed care organizations to identify providers who specialize in pregnancy-related and postpartum depression or mental health disorders and substance use disorders relative to such illnesses and to develop network adequacy standards for treatment of those disorders.

4. Remove reimbursement provisions.

5. Make technical corrections.
