HB No. 140

**Abstract:** Removes restrictions on the use of mini-trucks on state roads and highways.

Present law authorizes the operation of mini-trucks powered by a motor with a displacement of 660 cubic centimeters or more on the streets and highways in this state, excluding the interstate highways. Present law provides that the vehicles must first meet federal and state safety and emission standards and bear a state inspection sticker. Present law becomes void if it results in the loss of federal highway funds.

Proposed law removes the requirement that the vehicles must first meet all applicable federal and state safety and emissions standards.

(Amends R.S. 32:297.1)
