HB 541 Reengrossed

2025 Regular Session

Hilferty

**Abstract:** Provides for caregiver registries and what actions are required and prohibited by caregiver registries.

Present law defines "department", "financial viability", "home- and community-based service provider", "home- and community-based services", and "infirm elderly".

Proposed law extends the home- and community-based service provider definition by providing that a home- and community-based service provider does not include a caregiver registry which establishes a registry that facilitates referrals or matches between individuals seeking caregivers.

Proposed law also adds definitions for "caregiver" and "caregiver registry". Proposed law otherwise retains present law.

Proposed law prohibits a caregiver registry from participating in any of the following:

- (1) Employing, directing, or supervising caregivers.
- (2) Providing clinical oversight of caregivers.
- (3) Dictating any term or condition of a referred or matched caregiver's care relationship with an individual to whom the caregiver is referred or matched.

Proposed law requires a caregiver registry to provide information regarding licensed healthcare providers and facilities through which the caregiver may need to operate to provide care giving services.

Proposed law requires a caregiver registry to conduct a background check on the healthcare providers listed on the registry.

(Adds R.S. 40:2120.2(3)(f), (6), and (7) and 2120.8)

### Summary of Amendments Adopted by House

#### The House Floor Amendments to the engrossed bill:

1. Amend provision of present law that provides what a home- and community-based

service provider does not include.

2. Prohibit certain actions that a caregiver registry can participate in.
3. Require a caregiver registry to provide certain information in regards to licensed healthcare providers and facilities where the caregiver may provide care giving services.
4. Require a caregiver registry to conduct a background check on the healthcare providers listed on the registry.
5. Make technical changes.
