HEALTH CARE/PROVIDERS RE NO IMPACT See Note Page 1 of 1  
 Establishes a registry for individuals and entities that provide caregiving services

Proposed law provides that the term "home and community-based service provider", which is an agency, institution, society, corporation, person or persons, or any other individual or group that provides one or more home-and community-based services (as defined in present law) shall not include caregiver registries. Caregiver registries are defined as registries that facilitate referrals or matches between individuals seeking caregivers. Proposed law prohibits caregiver registries from: (1) Employing, directing, or supervising caregivers. (2) Providing clinical oversight to caregivers. (3) Dictating any term or condition of a referred or matched caregiver's care relationship with an individual to whom the caregiver is referred or matched. Proposed law provides that a caregiver registry shall provide information regarding licensed healthcare providers and facilities through which the caregiver may need to operate to provide caregiving services. A caregiver registry shall not constitute a home health agency, a home-and community-based service provider, or a nurse staffing agency. A caregiver registry shall conduct a background check on the healthcare providers listed on the registry.
