

## RÉSUMÉ DIGEST

ACT 103 (SB 81)

2025 Regular Session

Edmonds

Existing law provides that a parent of a child attending a public elementary or secondary school is entitled to:

- (1) Review instructional materials used by or administered to the parent's child.
- (2) Review any survey before it is administered or distributed by a school to a student.
- (3) Obtain paper copies of the instructional material used by their child for a fee that is reasonable and customary.

New law retains existing law and provides that a parent is also entitled to receive online access, free-of-charge, to any instructional material that is electronically accessible.

Existing law requires that each local school board adopt rules and policies for each school to make instructional materials available for review. Provides that the rules may specify reasonable hours for review and specifies that the school is to provide paper copies to a parent upon request and establish reasonable fees for those copies. Provides that a parent may make copies themselves via mobile or other device. Provides that the principal of each school must ensure that the school complies with such rules.

New law retains existing law and requires the local school board to adopt rules to specify reasonable hours for in-person review of instructional materials and to provide that such in-person review is free-of-charge if the parent is not requesting paper copies.

New law provides that academic nonsecure tests and assessment answer keys, may be shown to the parents at the discretion of the local school board and may include only in-person viewing at the school.

New law provides that online access to instructional materials is limited to curricula that is adopted by the local school board in compliance with existing law.

New law requires each local school board to submit an electronic copy or a digital link to rules, policies, and the fee schedules that are adopted pursuant to new law to the state Dept. of Education. Provides that, before March 9, 2026, the Dept. of Education shall compile the information submitted by the local school boards and submit a report of the data compiled to the Senate Committee on Education and the House Committee on Education as to the compliance of the local school boards with the provisions of new law. The report must include a copy of each policy and the reasonable and customary fee schedules permitted pursuant to this Section.

Prior law defined "instructional materials" to mean content that conveys the knowledge or skills of a subject in the school curriculum through a medium or a combination of media for conveying information to a student. It also includes any nonsecure test, nonsecure assessment, or survey administered to a student. The term also includes books, supplementary materials, teaching aids, computer software, magnetic media, DVD, CD-ROM, computer courseware, online material, information, or services, or an electronic medium or other means of conveying information to the student or otherwise contributing to the learning process.

New law removes nonsecure test and nonsecure assessment from the definition lists of "instructional materials" that are to be produced to the parent.

Effective August 1, 2025.

(Amends R.S. 17:355(C) and (D)(1))
