ACT 486 (HB 151)

2025 Regular Session

Prior law provided that a non-gaming supplier was required by the La. Gaming Control Board to be found suitable or obtain a non-gaming supplier permit when providing non-gaming goods or services to a casino gaming operator or sports wagering operator.

New law removes the provisions applicable to the non-gaming supplier permit and retains existing law regarding the finding of suitability.

New law provides that a gaming operator who is found unsuitable may be required to reimburse the board and division for reasonable costs up to \$250.

New law provides that no gaming operator licensee shall contract for goods or services with any employee who holds a key-gaming employee permit.

Effective August 1, 2025.
