**EXPENDITURE EXPLANATION**

Proposed law may result in a significant increase in SGF expenditures for the Department of Military Affairs, to the extent the department identifies and petitions to expropriate immovable property that is purchased, leased, possessed, owned, or in any manner under the control of foreign adversaries or an agent of a foreign adversary that is located within fifty miles of a military base. Proposed law is permissive. If the department pursues expropriation, the state would be responsible for just compensation of the property, court costs, legal expenses, and all costs associated with purchasing the property (e.g., appraisal, title work, attorney fees), and potentially relocation payments and related assistance to displaced occupants, pursuant to the Louisiana Relocation Assistance Act. The exact fiscal impact is indeterminable, as it is unknown how many properties may meet the criteria established in proposed law and is dependent on the size and value of the property.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
