Subject: Statewide dashboard	

COLLEGES/UNIVERSITIES EG NO IMPACT See Note Page 1 of 1

Requires the Board of Regents, Louisiana Works, and other state agencies to develop a publicly available statewide dashboard for career alignment that provides information related to educational and career opportunities. (8/1/26)

Proposed law provides that the Board of Regents develop, maintain, and make publicly available a statewide dashboard showing the alignment between postsecondary degree programs and workforce outcomes in Louisiana. Present law requires Louisiana Works to perform an annual return on investment analysis evaluating the relationship between industry-based credentials earned by high school students and attainment of high-wage, high-demand jobs. Proposed law retains present law and further provides that the Board of Regents and Louisiana Works develop procedures to collect and analyze data on work-based learning experiences such as internships, apprenticeships, and cooperative education programs, including whether experiences are paid or unpaid, duration, and credential alignment.
