

2016 Second Extraordinary Session

HOUSE BILL NO. 60

BY REPRESENTATIVE LEGER

CAPITAL OUTLAY: Provides for the comprehensive Capital Outlay budget (Item #3)

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state  
3 government, state institutions, and other public entities; to provide for the  
4 designation of projects and improvements; to provide for the financing thereof  
5 making appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1.A. The following sums or so much thereof as may be necessary are hereby  
8 appropriated out of any monies in the state treasury from the sources specified, from federal  
9 funds and self-generated revenues belonging to the state of Louisiana and/or collected by  
10 boards, commissions, departments, and agencies thereof, all for making capital outlay and  
11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July  
12 1, 2016, and ending June 30, 2017, subject to the conditions thereafter provided:

13 A project with funding payable from General Obligation Bonds Priority 1 indicates  
14 that the funding for the project includes the reauthorization of funding which was previously  
15 on a line of credit granted by the State Bond Commission in Fiscal Year 2015-2016. As  
16 used in this Section, the term "general obligation bonds" means state general obligation  
17 bonds or other evidences of indebtedness payable from the Bond Security and Redemption  
18 Fund. The amount set forth in this Section opposite each project, or so much thereof as may  
19 be necessary, is hereby appropriated and payable from the proceeds available from the sale  
20 of general obligation bonds, unless a different source of funding is indicated. Where such  
21 a different source of funding is indicated, the corresponding amount set forth, or so much

1 thereof as may be necessary, is hereby appropriated and payable from the source of funding  
2 indicated; provided, however, amounts appropriated and payable from federal funds may be  
3 encumbered or expended only to the extent such amounts shall have been committed or  
4 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,  
5 construction, and major repair projects appropriated by this act may be retained until  
6 completion of the project, even if no bona fide liability exists on the last day of the fiscal  
7 year.

8         This Act shall constitute the comprehensive state capital outlay budget for the 2016-  
9 2017 Fiscal Year. Projects set forth which are payable from the proceeds available from the  
10 sale of general obligation bonds shall have the priorities as indicated. The Request for Line  
11 of Credit form used by the Attorney General and Bond Counsel in evaluating Louisiana  
12 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed  
13 with the Commissioner of Administration, State Bond Commission, and State Attorney  
14 General. No general obligation bonds shall be sold, nor cash lines of credit granted to fund  
15 any lower priority project prior to the sale of general obligation bonds or the granting of cash  
16 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter  
17 provided. This prohibition against funding a lower priority project shall not apply upon a  
18 showing of an impossibility or impracticality either to proceed with all unfunded higher  
19 priority projects or to proceed with the funding of such projects or any part thereof through  
20 the issuance of general obligation bonds for any reason. Such showing shall be stated in  
21 reasonable detail in a certificate or certificates signed by the state agency responsible for  
22 administering the funding, and filed with the Commissioner of Administration and the State  
23 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by  
24 the Commission that proceeding with such a project or the funding thereof through the  
25 issuance of general obligation bonds is impractical or impossible, the Commission may then  
26 proceed with the sale of general obligation bonds or the granting of cash lines of credit  
27 without regard to the priority of the unfunded projects determined to be impossible or  
28 impractical.

1           Upon recommendation by the state agency responsible for administering the funding,  
2 if it is determined at any time that proceeding with the project or with the funding thereof  
3 is no longer impossible or impractical, the State Bond Commission may rescind the  
4 certificate of impossibility or impracticality and may proceed with the project or with the  
5 issuance of general obligation bonds or the granting of cash lines of credit to fund the  
6 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),  
7 upon reviewing certificates as described above and determining that proceeding with such  
8 project or the funding thereof through the issuance of general obligation bonds is impossible  
9 or impractical, may designate a lower priority for such project. The Board's determination  
10 and lower priority designation shall be submitted to the members of the Legislature for their  
11 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the  
12 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of  
13 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written  
14 request of the appropriate legislators and agency, the Board determines that an adjustment  
15 to a project description originally set forth in such capital budget adopted by the Legislature  
16 for a current fiscal year is necessary to correct a mistake in a project description, clarify a  
17 description, change the scope of a description, or make any other adjustment the Board  
18 deems necessary to implement the purpose of the project, such adjustment shall become  
19 effective only upon the approval by majority vote of the elected members of each house of  
20 the Legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the  
21 Louisiana Revised Statutes of 1950.

22           If such approval is granted, notification by the chair or secretary of the Board of the  
23 results of the balloting shall be transmitted to the State Bond Commission, which may then  
24 proceed with the sale of general obligation bonds or the granting of cash lines of credit for  
25 each change approved upon request of the Commissioner of Administration in accordance  
26 with the general rule.

27           With respect to Priorities 1 through 5, a lower priority project may be moved to a  
28 higher priority only upon a showing of an emergency or other cause not reasonably  
29 anticipated by the Legislature, which shall be stated in reasonable detail in a certificate

1 signed by the head of the appropriate department, political subdivision, or agency and filed  
2 with the Commissioner of Administration and the Board. Upon a determination by the  
3 Board that such project should be moved to a higher priority because of an emergency or  
4 other cause not reasonably anticipated by the Legislature, the Board shall designate a higher  
5 priority to the project. The matter then shall be submitted to and be subject to the same  
6 approval by the members of the Legislature in the manner previously indicated in this  
7 Section. If such approval is granted, notification by the chair or secretary of the board of the  
8 change of priority shall be transmitted to the State Bond Commission, which then upon  
9 request of the Commissioner of Administration, may proceed with the sale of general  
10 obligation bonds or the granting of cash lines of credit in accordance with the general rule.  
11 As to projects within a priority, the State Bond Commission acting on requests submitted by  
12 the Commissioner of Administration shall determine when such project, or phases thereof,  
13 shall be funded. In making such determination, the State Bond Commission shall consider  
14 the amount of proceeds of general obligation bonds to be made available in light of money  
15 and capital market conditions; the expenditure requirements of the project; the time required  
16 for architectural plans and drawings, public bidding, and site acquisition and preparation;  
17 availability of receipt of federal monies; litigation affecting the undertaking or completion  
18 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and  
19 other items of a similar nature bearing upon the possibility or the necessity to commence a  
20 project or any particular phase thereof.

21 Any other provision of this Act to the contrary notwithstanding, projects described  
22 in Priority 5 of this Act shall not be moved to a higher priority except upon one of the  
23 following conditions: (1) Funding is necessary to complete or additionally fund a project  
24 located elsewhere in the capital outlay act. Determination of such condition shall be made  
25 by the head of the appropriate department or agency by means of a certificate to that effect  
26 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such  
27 change and if approved by a majority of each house of the Legislature it shall be funded, or  
28 (2) unless required by an emergency or other cause not reasonably anticipated by the  
29 Legislature, to be in accordance with procedures set forth in this Section. However, the State

1 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which  
2 represents that portion of construction contracts which were let during a previous fiscal year,  
3 or construction contracts which will be let during the current fiscal year, but which will not  
4 require cash expenditures during the year. Such non-cash lines of credit, when combined  
5 with previously sold bonds or with higher priority bonds or lines of credit, or with funds  
6 appropriated from other sources, will provide sufficient appropriated funds to award  
7 equipment or construction contracts. Contracts shall not be awarded without approval of the  
8 Division of Administration.

9       Upon approval by the State Bond Commission, and subject to compliance with its  
10 policies and procedures and the procedures set forth herein, a line of credit providing for the  
11 use of funds in anticipation of the sale of general obligation bonds may be granted to the  
12 appropriate administering agency or department from the Comprehensive Capital Outlay  
13 Escrow Account, or if there is not a sufficient amount available in such account, from other  
14 available state cash in the state treasury, for capital improvement projects for which bond  
15 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds  
16 for such projects, unless the attorney general advises that an impediment exists to the valid  
17 issuance of the bonds on the date such line of credit is granted.

18       All bonds that are to be repaid, in whole or in part, by revenues generated by the  
19 project shall be designated as "Reimbursement Bonds". The State Bond Commission shall  
20 enter into such agreements as are necessary to provide that the agency or subdivision, whose  
21 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption  
22 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as  
23 determined by the State Bond Commission.

24       Priority 1 general obligation bond funding shall be limited to:

25       (1) Projects and amounts which were previously authorized by Act 26 of the 2015  
26 Regular Session of the Legislature; and which were granted cash lines of credit by the State  
27 Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2015-  
28 2016.

1           (2) The reauthorization of the portion of the outstanding Fiscal Year 2015-2016  
2 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in  
3 Fiscal Year 2016-2017 and therefore must be converted to Cash Lines of Credit in Fiscal  
4 Year 2016-2017.

5           (3) Commitments made in the Higher Education Desegregation Settlement  
6 Agreement.

7           Priority 2 general obligation bond projects are for the completion of plans and  
8 specifications, land acquisition, site preparation, or for construction which will begin during  
9 the fiscal year. It is presently anticipated that the listed projects will require the sale of  
10 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

11          Priority 3 general obligation bond projects are for the preparation of plans and  
12 specifications, land acquisition, site preparation, or for construction and shall be limited to  
13 funding for the portion of construction contracts which will not require cash expenditures  
14 during the fiscal year. The projects in this category shall be considered future year projects  
15 in the State's five year capital outlay plan. It is presently anticipated that the listed projects  
16 will not require the sale of bonds or extension of lines of credit during the fiscal year.

17          Priority 4 general obligation bond projects are for the preparation of plans and  
18 specifications, land acquisition, site preparation, or for construction and shall be limited to  
19 funding for the portion of construction contracts which will not require cash expenditures  
20 during the fiscal year. The projects in this category shall be considered future year projects  
21 in the State's five year capital outlay plan. It is presently anticipated that the listed projects  
22 will not require the sale of bonds or extension of lines of credit during the fiscal year.

23          Priority 5 general obligation bond funding shall be limited to funding for the portion  
24 of construction contracts which will not require cash expenditures during the fiscal year.  
25 These funds, when combined with previously sold bonds or with higher priority bonds on  
26 lines of credit, or with funds appropriated from other sources, will provide sufficient  
27 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the  
28 award of these contracts.

1 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D)  
 2 and the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of  
 3 Transportation and Development is authorized to enter into contracts or agreements for  
 4 projects approved pursuant to the Highway Priority Program, Airport Construction and  
 5 Development Priority Program, Port Construction and Development Priority Program, and  
 6 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced  
 7 during the fiscal year which do not require cash expenditures for the full contract or  
 8 agreement amount.
