Subject: Creates sales tax exemption for commercial fishermen	

TAX/SALES-USE, ST-EXEMPT EG DECREASE GF RV See Note Page 1 of 1
 Provides for effectiveness of the exemption for purchases of fishing vessels, supplies, fuels, lubricants, and repairs for vessels by licensed commercial fishermen (Item #33)

Current law taxes purchases of tangible personal property and certain services under 4 state sales tax impositions: 1%, 2%, 1.97% and 1% for a total of 4.97%, though not all items are taxed at the maximum rate. Items specifically exempt from taxation through 6/30/18 are listed under R.S. 47:302 (2%) and 47:321.1 (1%). Purchases by commercial fishermen are currently taxed at 3% and will be exempt from state sales tax beginning 7/1/18. Affected purchases include materials, supplies, and services necessary for repairs, maintenance, operations, as well as fuels and lubricants.

Proposed law exempts purchases made by commercial fishermen from state sales tax beginning 7/1/16 by adding them to the exemption list under R.S. 47:302 (2%) and 47:321.1 (1%).

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

The bill provides an exemption from state sales tax, and to the extent that commercial fishermen will no longer pay state sales tax on their eligible purchases made on or after 7/1/16, state receipts will be less than they would otherwise be. Reporting associated with this exemption is included in the aggregate "other" category on the sales tax form which does not provide specific data reflecting the purchases made by these particular taxpayers. However, the cumulative effect of changes to taxes reported in the "other" category may be substantial depending upon the number and type of similar exemptions enacted this session.

To the extent transactions are exempted from taxation, revenue collections are lower than they would otherwise be, even if specific foregone revenue amounts are not known. The effect of bills such as this are incorporated by utilizing forecasts at the lower end of the range of possible forecasts, and the actual lower collections history becomes the basis for future revenue forecasts.

The bill will have no impact in FY 19 and beyond as these purchases are already exempt at that time under current law.
