HB 677 Original

2017 Regular Session

Hodges

**Abstract:** Requires an ignition interlock device as a condition of obtaining a restrictive driver's license.

Present law provides for eligibility for a restrictive driver's license after the first 90 days of a suspension for persons refusing a chemical test for intoxication.

Present law further provides for eligibility for a restrictive driver's license after the first 30 days of a suspension for persons submitting to a chemical test and results indicate a blood alcohol level above the legal limit.

Present law also provides for immediate eligibility, upon proof to the Dept. of Public Safety and Corrections, for an ignition interlock restrictive license for any licensee who has had their license suspended.

Proposed law eliminates the 30 and 90 day waiting periods for a restrictive license and provides that persons will be immediately be eligible for an ignition interlock restrictive license.

Proposed law requires any licensee who has failed a chemical test for intoxication with a blood alcohol level of 0.08% or above, or 0.02% if the licensee was under the age of 21, or any person who has refused a chemical test for intoxication to have an ignition interlock device as a condition of the restrictive license.

(Amends R.S. 32:667(B)(1)(b) and 668(B)(1)(b) and (c))
