EXPENDITURE EXPLANATION

There is little to no anticipated direct material effect on governmental expenditures as a result of this measure.

Based on information from the City of Marksville, City of Baton Rouge, the East Baton Rouge Sheriff's Office, and the Department of Public Safety, there is no anticipated direct material effect on governmental expenditures as a result of this measure.

Based on information from the City of West Monroe, the reduction in the number of days officers in officer involved incidents must secure legal representation from 30 days to 14 days could reduce the time of investigations related to the incidents, which could then reduce the amount of time the officers are on paid leave. The reduction of 16 days could save an average of \$2,880 per officer-involved incident based on an average pay of \$30 per hour for 96 hours (hours worked during a 16-day period).

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
