 Proposed Amd.:
 Sub. Bill For.:

Date: May 24, 2017 3:38 PM	Author: SMITH, P.
Dept./Agy.: REVENUE	Analyst: Benjamin Vincent
Subject: Telecommunications Tax for the Deaf: Rate/Base	

TAX RE +\$4,200,000 SD RV See Note Page 1 of 1
 Provides relative to the telecommunications tax for the deaf

Current law imposes a \$0.05 monthly tax per line on residential and business telephone access lines, which is deposited into the Telecommunications for the Deaf Fund to provide accessibility services and technology for persons who are deaf, hard of hearing, or speech-impaired. Companies collecting and remitting the tax are allowed to retain 2% of the amount collected and remitted if the payment is made timely.

Proposed law reduces the rate imposed from \$0.05 to \$0.04 per line, and imposes the levy on wireless services. It directs the levy to be applied per line for each access line or telephone number for wireless devices. It also increases the allowable timely remittance compensation from 2% to 3% for non-prepaid services.

Effective October 1, 2017.

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

Proposed law would extend the tax on residential and business telephone landlines to wireless telephone service, and reduce the rate from \$0.05 to \$0.04 per month per line. It would not impose a charge on the retail sale of prepaid wireless service.

LA Dept. of Revenue reports that current phone number data indicates 10.4 million telephone numbers in service in Louisiana. Applying the \$0.04 monthly rate to these transactions implies collections of \$5.0 million. Comparing this estimate, less 3% of collections for timely remittance, to the most recent landline collections figure of \$700,000, implies a revenue gain of \$4.2 million due to the provisions charging wireless services and reducing the rate to \$0.04 for a full year.

In FY18, the impact of proposed law will be a \$3.2 million gain to statutory dedications (the Telecommunications for the Deaf Fund), as it is effective October 1, 2017. In FY19-FY22, the projected net revenue impact is \$4.2 million.
