Provides relative to capital outlay reform.

The current law provides that bond funding of non-state projects shall be limited to no more than 25% of the cash line of credit capacity for projects. The proposed legislation requires the commissioner of administration to divide 10% of the cash line of credit capacity granted to non-state projects among the parishes on a pro rata basis of population and number of homesteads throughout the state; and designate the remaining 15% of non-state projects for highway and bridge projects or economic development projects. Of the cash line of credit granted to state projects, no less than 50% shall be designated for highway and bridge projects. The proposed law also repeals the present law that authorizes the commissioner of administration to establish a needs-based formula for determining the inability of a non-state entity to provide the required match of not less than 25% of the total requested amount of funding. It further requires the commissioner of administration to make recommendations to the Joint Legislative Committee on Capital Outlay (JLCCO) concerning state and non-state entity projects to be granted lines of credit; and to submit the list of recommendations to the JLCCO no **(Cont. on Page 2)**

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure due to changes in the procedure by which state and non-state entity projects are considered for lines of credit by the SBC. The number of capital outlay projects and the amount of capital outlay spending are functions of the state's available debt capacity which is not impacted by the proposed change to state and non-state entity projects. Additionally, to the extent that the State Treasurer provides the Revenue Sharing formula to the DOA Office of Facility Planning & Control to be utilized in allocating cash lines of credit among the parishes, there will be no fiscal impact.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
