Subject: Ad Valorem Taxation Assessment Ratios		

TAX/AD VALOREM TAX EG NO IMPACT LF RV See Note Page 1 of 1
Provides for the classification of and applicable fair market value percentages for property subject to ad valorem taxation

Proposed law establishes a new statute containing the present ad valorem assessment ratios which are currently provided in the constitution. The percentages of fair market value applicable to each classification of property are established as 10% Land, 10% Residential Improvements, 15% Electric Cooperatives, 25% Public Service Property, and 15% Other Property.

Contingent upon adoption of the proposed constitutional amendment contained in HB 366 of this session. That amendment removes these assessment ratios from the constitution, and requires them to be established in law with a 2/3 vote of the legislature.

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure. The bill establishes in law the same assessment ratios that are currently in the constitution. However, in combination with the constitutional amendment proposed in HB 366, these assessment ratios could be changed in the future with a 2/3 vote of the legislature but without a vote of the electorate on any such specific changes to those ratios as provided in law.
