

RÉSUMÉ DIGEST

ACT 198 (HB 121)

2017 Regular Session

Gregory Miller

Existing law requires the independent administrator to file a verified inventory or sworn descriptive list prior to closing a succession.

New law retains existing law and requires that the list be "detailed".

Prior law prohibited a successor from being placed in possession of property without this filing.

New law deletes prior law and provides that the detailed descriptive list shall be sealed upon request.

New law further provides that if the detailed descriptive list is sealed, a copy shall be provided to universal successors and the surviving spouse, and a court may furnish relevant information to any successor, spouse, or creditor of the estate.

Effective August 1, 2017.

(Amends C.C.P. Art. 3396.18)
