11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July
12 1, 2017, and ending June 30, 2018, subject to the conditions thereafter provided:

13 A project with funding payable from General Obligation Bonds Priority 1 indicates
14 that the funding for the project includes the reauthorization of funding which was previously
15 on a line of credit granted by the State Bond Commission in Fiscal Year 2016-2017. As
16 used in this Section, the term "general obligation bonds" means state general obligation
17 bonds or other evidences of indebtedness payable from the Bond Security and Redemption
18 Fund. The amount set forth in this Section opposite each project, or so much thereof as may
19 be necessary, is hereby appropriated and payable from the proceeds available from the sale
20 of general obligation bonds, unless a different source of funding is indicated. Where such
21 a different source of funding is indicated, the corresponding amount set forth, or so much
22 thereof as may be necessary, is hereby appropriated and payable from the source of funding

1 indicated; provided, however, amounts appropriated and payable from federal funds may be
2 encumbered or expended only to the extent such amounts shall have been committed or
3 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,
4 construction, and major repair projects appropriated by this Act may be retained until
5 completion of the project, even if no bona fide liability exists on the last day of the fiscal
6 year.

7 This Act shall constitute the comprehensive state capital outlay budget for the 2017-
8 2018 Fiscal Year. Projects set forth which are payable from the proceeds available from the
9 sale of general obligation bonds shall have the priorities as indicated. The Request for Line
10 of Credit form used by the attorney general and Bond Counsel in evaluating Louisiana
11 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed
12 with the commissioner of administration, State Bond Commission, and state attorney
13 general. No general obligation bonds shall be sold, nor cash lines of credit granted to fund
14 any lower priority project prior to the sale of general obligation bonds or the granting of cash
15 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter
16 provided. This prohibition against funding a lower priority project shall not apply upon a
17 showing of an impossibility or impracticality either to proceed with all unfunded higher
18 priority projects or to proceed with the funding of such projects or any part thereof through
19 the issuance of general obligation bonds for any reason. Such showing shall be stated in
20 reasonable detail in a certificate or certificates signed by the state agency responsible for
21 administering the funding, and filed with the commissioner of administration and the State
22 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by
23 the Commission that proceeding with such a project or the funding thereof through the
24 issuance of general obligation bonds is impractical or impossible, the Commission may then
25 proceed with the sale of general obligation bonds or the granting of cash lines of credit
26 without regard to the priority of the unfunded projects determined to be impossible or
27 impractical.

28 Upon recommendation by the state agency responsible for administering the funding,
29 if it is determined at any time that proceeding with the project or with the funding thereof
30 is no longer impossible or impractical, the State Bond Commission may rescind the
31 certificate of impossibility or impracticality and may proceed with the project or with the

1 issuance of general obligation bonds or the granting of cash lines of credit to fund the
2 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),
3 upon reviewing certificates as described above and determining that proceeding with such
4 project or the funding thereof through the issuance of general obligation bonds is impossible
5 or impractical, may designate a lower priority for such project. The Board's determination
6 and lower priority designation shall be submitted to the members of the legislature for their
7 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the
8 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of
9 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written
10 request of the appropriate legislators and agency, the Board determines that an adjustment
11 to a project description originally set forth in such capital budget adopted by the legislature
12 for a current fiscal year is necessary to correct a mistake in a project description, clarify a
13 description, change the scope of a description, or make any other adjustment the Board
14 deems necessary to implement the purpose of the project, such adjustment shall become
15 effective only upon the approval by majority vote of the elected members of each house of
16 the legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the
17 Louisiana Revised Statutes of 1950.

18 If such approval is granted, notification by the chair or secretary of the Board of the
19 results of the balloting shall be transmitted to the State Bond Commission, which may then
20 proceed with the sale of general obligation bonds or the granting of cash lines of credit for
21 each change approved upon request of the commissioner of administration in accordance
22 with the general rule.

23 With respect to Priorities 1 through 5, a lower priority project may be moved to a
24 higher priority only upon a showing of an emergency or other cause not reasonably
25 anticipated by the legislature, which shall be stated in reasonable detail in a certificate signed
26 by the head of the appropriate department, political subdivision, or agency and filed with the
27 commissioner of administration and the Board. Upon a determination by the Board that such
28 project should be moved to a higher priority because of an emergency or other cause not
29 reasonably anticipated by the legislature, the Board shall designate a higher priority to the
30 project. The matter then shall be submitted to and be subject to the same approval by the
31 members of the legislature in the manner previously indicated in this Section. If such

1 approval is granted, notification by the chair or secretary of the board of the change of
2 priority shall be transmitted to the State Bond Commission, which then upon request of the
3 commissioner of administration, may proceed with the sale of general obligation bonds or
4 the granting of cash lines of credit in accordance with the general rule. As to projects within
5 a priority, the State Bond Commission acting on requests submitted by the commissioner of
6 administration shall determine when such project, or phases thereof, shall be funded. In
7 making such determination, the State Bond Commission shall consider the amount of
8 proceeds of general obligation bonds to be made available in light of money and capital
9 market conditions; the expenditure requirements of the project; the time required for
10 architectural plans and drawings, public bidding, and site acquisition and preparation;
11 availability of receipt of federal monies; litigation affecting the undertaking or completion
12 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and
13 other items of a similar nature bearing upon the possibility or the necessity to commence a
14 project or any particular phase thereof.

15 Any other provision of this Act to the contrary notwithstanding, projects described
16 in Priority 5 of this Act shall not be moved to a higher priority except upon one of the
17 following conditions: (1) Funding is necessary to complete or additionally fund a project
18 located elsewhere in the Capital Outlay Act. Determination of such condition shall be made
19 by the head of the appropriate department or agency by means of a certificate to that effect
20 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such
21 change and if approved by a majority of each house of the legislature it shall be funded, or
22 (2) unless required by an emergency or other cause not reasonably anticipated by the
23 legislature, to be in accordance with procedures set forth in this Section. However, the State
24 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which
25 represents that portion of construction contracts which were let during a previous fiscal year,
26 or construction contracts which will be let during the current fiscal year, but which will not
27 require cash expenditures during the year. Such non-cash lines of credit, when combined
28 with previously sold bonds or with higher priority bonds or lines of credit, or with funds
29 appropriated from other sources, will provide sufficient appropriated funds to award
30 equipment or construction contracts. Contracts shall not be awarded without approval of the
31 division of administration.

1 Upon approval by the State Bond Commission, and subject to compliance with its
2 policies and procedures and the procedures set forth herein, a line of credit providing for the
3 use of funds in anticipation of the sale of general obligation bonds may be granted to the
4 appropriate administering agency or department from the Comprehensive Capital Outlay
5 Escrow Account, or if there is not a sufficient amount available in such account, from other
6 available state cash in the state treasury, for capital improvement projects for which bond
7 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds
8 for such projects, unless the attorney general advises that an impediment exists to the valid
9 issuance of the bonds on the date such line of credit is granted.

10 All bonds that are to be repaid, in whole or in part, by revenues generated by the
11 project shall be designated as "Reimbursement Bonds". The State Bond Commission shall
12 enter into such agreements as are necessary to provide that the agency or subdivision, whose
13 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption
14 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as
15 determined by the State Bond Commission.

16 Priority 1 general obligation bond funding shall be limited to:

17 (1) Projects and amounts which were previously authorized by Act 16 of the 2016
18 Second Extraordinary Session of the Legislature; and which were granted cash lines of credit
19 by the State Bond Commission. The bonds to fund these projects were not sold in Fiscal
20 Year 2016-2017.

21 (2) The reauthorization of the portion of the outstanding Fiscal Year 2016-2017
22 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in
23 Fiscal Year 2017-2018 and therefore must be converted to Cash Lines of Credit in Fiscal
24 Year 2017-2018.

25 (3) Commitments made in the Higher Education Desegregation Settlement
26 Agreement.

27 Priority 2 general obligation bond projects are for the completion of plans and
28 specifications, land acquisition, site preparation, or for construction which will begin during
29 the fiscal year. It is presently anticipated that the listed projects will require the sale of
30 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

1 Priority 3 general obligation bond projects are for the preparation of plans and
2 specifications, land acquisition, site preparation, or for construction and shall be limited to
3 funding for the portion of construction contracts which will not require cash expenditures
4 during the fiscal year. The projects in this category shall be considered future year projects
5 in the state's five-year capital outlay plan. It is presently anticipated that the listed projects
6 will not require the sale of bonds or extension of lines of credit during the fiscal year.

7 Priority 4 general obligation bond projects are for the preparation of plans and
8 specifications, land acquisition, site preparation, or for construction and shall be limited to
9 funding for the portion of construction contracts which will not require cash expenditures
10 during the fiscal year. The projects in this category shall be considered future year projects
11 in the state's five-year capital outlay plan. It is presently anticipated that the listed projects
12 will not require the sale of bonds or extension of lines of credit during the fiscal year.

13 Priority 5 general obligation bond funding shall be limited to funding for the portion
14 of construction contracts which will not require cash expenditures during the fiscal year.
15 These funds, when combined with previously sold bonds or with higher priority bonds on
16 lines of credit, or with funds appropriated from other sources, will provide sufficient
17 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the
18 award of these contracts.

19 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D)
20 and the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of
21 Transportation and Development is authorized to enter into contracts or agreements for
22 projects approved pursuant to the Highway Priority Program, Airport Construction and
23 Development Priority Program, Port Construction and Development Priority Program, and
24 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced
25 during the fiscal year which do not require cash expenditures for the full contract or
26 agreement amount.

38 Section 2. The expenditure of funds appropriated in this Act, except appropriations
 39 made to nonprofit economic development corporations, shall be in conformity to all existing
 40 statutes relative to public bidding, contractual review, and R.S. 39:101 through 128 and any
 41 other statutes affecting the capital outlay program for state government, state institutions,
 42 and political entities. No contract shall be awarded for any project prior to the granting of
 43 a line of credit or the sale of bonds by the State Bond Commission, determination by the
 44 state treasurer that cash funding is available in the Comprehensive Capital Outlay Escrow

1 Account for the project, or delivery of revenue bonds whose issuance is authorized in
2 Section 1 of this Act.

3 Section 3. Payment for projects specified in this Act must be made by warrant submitted
4 to the division of administration, Department of Transportation and Development, the state
5 treasurer or other administering agency as provided in Section 8, whichever is appropriate,
6 only to the extent of funds required for immediate payment. Copies of invoices or other
7 supporting documentation shall be submitted with warrants. In the event that any equipment
8 included in this Act, is procured pursuant to the provisions of the State Lease-Purchase Act,
9 R.S. 39:1761 et seq., the amounts included in this Act for each such piece of equipment shall
10 not be appropriated. The provisions of R.S. 39:1771 which require equipment to be leased
11 under the State Lease-Purchase Act to be included in the executive budget and approved by
12 the legislature through inclusion in the General Appropriation Act shall be considered
13 waived upon the inclusion of such equipment in this Act. Projects contained in this Act may,
14 at the direction of the division of administration and with the approval of the State Bond
15 Commission, alternatively be funded through financing programs heretofore or hereafter
16 provided by a public trust and public corporation duly organized pursuant to R.S. 9:2341 et
17 seq., having for its beneficiary the state and the Louisiana Local Government Environmental
18 Facilities and Community Development Authority, pursuant to R.S. 33:4548.1 et seq.

19 Section 4. If at any time during the Fiscal Year 2017-2018, the governor should find,
20 or the Joint Legislative Committee on the Budget or the commissioner of administration
21 should report to the governor, that the receipts of the treasury are falling short or appear
22 likely to fall short of the revenue estimates for the fiscal year and that a cash deficit is likely
23 to be incurred, the governor shall take such steps as deemed necessary to prevent the
24 occurrence of a cash deficit. In the event that a capital outlay project funded in this Act falls
25 under an agency which is abolished or for which funds are not appropriated in the 2017-2018
26 General Appropriation Act, then the funds appropriated in this Act for such capital outlay
27 projects shall not be expended unless deemed necessary by the governor to protect life or
28 property. In the event that legislation is enacted which transfers facilities or programs for
29 which projects are funded in this Act, on behalf of one agency, institution, department, or
30 management board to another agency, institution, department, or management board, then
31 the projects in this Act shall be deemed transferred also.

1 Section 5. All monies appropriated by this Act and any applicable funds of a prior
2 capital outlay budget act adopted by the legislature shall be deposited by the state treasurer
3 in the Comprehensive Capital Outlay Escrow Account, established by this Section, in the
4 state treasury. In accordance with R.S. 36:764, no later than sixty days following the end
5 of each quarter, the state treasurer shall report to the Joint Legislative Committee on the
6 Budget and the commissioner of administration, all funds contained in the Miscellaneous
7 Fund of the Comprehensive Capital Outlay Escrow Account. Notwithstanding any
8 provisions contained herein or other law to the contrary, any original issue premium or
9 accrued interest proceeds received pursuant to the sale of general obligation bonds shall
10 remain on deposit to the credit of the Bond Security and Redemption Fund until such time
11 as they may be utilized in accordance with U.S. Department of the Treasury Regulations
12 promulgated pursuant to the Internal Revenue Code of 1986. All such monies shall be
13 administered according to the particular act pertaining to the fiscal year in which such
14 monies were appropriated. If it is determined by the director of the office of facility
15 planning and control, division of administration, that the funds appropriated by this Act or
16 any prior capital outlay budget act are not sufficient to complete the projects contained in
17 any capital outlay budget act, through unavoidable deficiencies in appropriation, including
18 administrative and legal requirements, the commissioner of administration, subject to
19 approval of the Joint Legislative Committee on the Budget, may direct the use of interest
20 earned from the investment of general obligation bond or note proceeds in the
21 Comprehensive Capital Outlay Escrow Account, not to exceed an aggregate of five million
22 dollars in any one fiscal year, for the purpose of completing the projects contained in any
23 capital outlay budget act and such money shall be deemed appropriated in specific amounts
24 necessary for such purpose. All appropriations in this Act which are made as additions to
25 funds for previously authorized projects shall be included, for accounting purposes, in the
26 account of the previously authorized projects. If it is determined by the director of the office
27 of facility planning and control, division of administration, that it is cost effective and
28 practical to combine individual appropriations, the commissioner of administration, subject
29 to the approval of the Joint Legislative Committee on the Budget, may direct that two or
30 more appropriations or parts thereof may be combined into a single project for accounting
31 and audit purposes. The commissioner of administration may direct that funding in the
32 various statewide and/or multiple parish projects for improvements for state facilities may

1 be transferred to any project, in this Act or any previous Capital Outlay Act, which require
2 supplemental funding for improvements for state facilities which qualify for funding through
3 the various statewide and/or multiple parish projects for improvements for state facilities.
4 The office of facility planning and control, division of administration is authorized to receive
5 settlements and vendor rebates not in excess of \$50,000 unless approved by the Joint
6 Legislative Committee on the Budget, and to add those receipts to the funding for projects
7 in this Act or any previous Capital Outlay Act for which project funds are received. The
8 office of facility planning and control, division of administration is authorized to receive
9 insurance payments and are hereby authorized to immediately repair facilities that suffer
10 insurance losses without those projects being included in the Act and shall report to the Joint
11 Legislative Committee on the Budget any expenditures from insurance funds received
12 pursuant to this section. A portion, as determined by the commissioner of administration and
13 not to exceed one percent (1%), of the funding for projects which qualify for the Percent for
14 Art Program, may be transferred from the qualifying project budgets, to the Department of
15 Culture, Recreation and Tourism for costs of acquiring art and administering the program.
16 For all Percent for Art Program projects in this or any previous capital outlay, up to ten
17 percent (10%) of the aforementioned one percent (1%) may be used for the costs of
18 administering the projects.

19 Section 6. Prior to March 1, 2018, the commissioner of administration shall submit to
20 the Joint Legislative Committee on Capital Outlay a list of projects that are completed and
21 the cash balances remaining in each project.

22 Section 7. The commissioner of administration, with the approval of the Joint
23 Legislative Committee on the Budget, is authorized to supplement or substitute the
24 appropriations specified in this or previous capital outlay acts with any federal or other funds
25 which are or may become available and such funds shall be deemed appropriated in specific
26 amounts necessary for the purposes of this Act. Any funds received by the State Bond
27 Commission as a result of a prepayment of reimbursement contracts as authorized by law
28 and the policy and procedure for reimbursement contracts of the Department of Treasury,
29 office of State Bond Commission, shall be deposited as set forth in such policy and
30 procedure and shall be deemed available and appropriated in specific amounts necessary for
31 the purposes of this Act pursuant to the procedure set forth in this section.

1 Section 8. All of the funds herein appropriated, except for appropriations made to the
2 Department of Military Affairs, the Legislature, the Louisiana Stadium and Exposition
3 District, the Department of Economic Development, the Coastal Protection and Restoration
4 Authority, the Division of Administration for Supplemental State Funds for Local
5 Government Assistance Program, the Division of Administration for the Community Water
6 Enrichment Program or the Department of Transportation and Development, shall be
7 considered as having been appropriated directly to the Office of Facility Planning and
8 Control, Division of Administration, and all projects herein authorized and funded shall be
9 subject to the provisions of R.S. 39:101 through 128. All of the funds appropriated in the
10 Capital Outlay Act under the name of non-state entities shall be administered by the Office
11 of Facility Planning and Control, Division of Administration, under cooperative endeavor
12 agreements. All cooperative endeavor agreements for non-state entities shall be prepared
13 by the Office of Facility Planning and Control and the Commissioner of Administration is
14 hereby authorized and directed to effectuate any necessary transfer of funds from the
15 Department of Justice to the Office of Facility Planning and Control in order to accomplish
16 this purpose. However, all cooperative endeavor agreements between the Department of
17 Transportation and Development and non-state entities entered into prior to the passage of
18 this Act shall continue to be administered by the Department of Transportation and
19 Development. Cooperative endeavor agreements entered into pursuant to this Act, and
20 approved by the Commissioner of Administration or his designee, or the Secretary of the
21 Department of Transportation and Development for projects appropriated to or administered
22 by the Department of Transportation and Development, shall not be required to be submitted
23 to the Division of Administration, Office of Contractual Review. For all projects in the
24 Capital Outlay Act or a previous Capital Outlay Act which are appropriated to the Office of
25 Facility Planning and Control, Division of Administration, including those administered by
26 cooperative endeavor agreements, up to six percent of each line-item may be used for costs
27 of administering the projects. For all projects in Capital Outlay Act or a previous Capital
28 Outlay Act appropriated to the Department of Transportation and Development, up to six
29 percent of each line-item may be used for costs of administering the projects, or for field
30 engineering/construction supervision. Line-item general obligation bond projects
31 appropriated to the Department of Transportation and Development in the Capital Outlay
32 Act or a previous Capital Outlay Act shall be authorized to draw Transportation Trust Funds

1 from the Highway Program appropriation, for supplemental funding on overruns in excess
2 of the original estimated project cost as determined by the Department of Transportation and
3 Development, provided however that said projects are in the state or federal highway system
4 and in the priority program, and the overrun is less than \$50,000. Any such overrun of
