

## RÉSUMÉ DIGEST

ACT 343 (HB 437)

2017 Regular Session

White

Existing law specifies that no application for a license for the operation of a motor vehicle could be received from any person making application for the first time unless there was also submitted with the application, on a form approved by the secretary of the Dept. of Public Safety and Corrections, public safety services, written evidence of the successful completion by the applicant of a driver education course or a prelicensing training course.

New law authorizes a driver education provider to provide all or part of the six-hour classroom instruction portion of an approved prelicensing training course by an alternative method of instruction that does not require students to be present in a traditional classroom, subject to approval by the Dept. of Public Safety and Corrections, public safety services.

New law authorizes the Dept. of Public Safety and Corrections, public safety services to approve the alternative method if it includes testing and security measures that are at least as secure as the measures available in the traditional classroom setting and use of the alternative method satisfies any other requirement applicable to a prelicensing training course taught in the traditional classroom setting.

New law prohibits any portion of the 30-hour classroom instruction of the "driver education course" required by existing law from being offered in any setting other than a traditional classroom to persons under the age of 18.

New law authorizes the Dept. of Public Safety and Corrections, public safety services, to establish rules and regulations necessary to define the requirements for alternative methods of instruction for the classroom portion of an approved prelicensing training course and provides that the rules are subject to oversight review by the house and senate committees on transportation, highways and public works.

Effective August 1, 2017.
