HB 428 Original

2018 Regular Session

Coussan

**Abstract:** Expands the definition of "premises," "premises to be licensed," or "licensed premises" on which low alcohol content beverages are sold or offered for sale, and includes outside areas of buildings that sell or offer to sell low alcohol content beverages only if the applicant or permit holder owns or has a bona fide written lease.

Present law defines "premises" or "premises to be licensed" to mean the building or part of the building as defined on the permit application where low alcohol content beverages are sold. If the beverages are regularly sold or served outside the building, the definition also includes the outside area.

Proposed law defines "premises," "premises to be licensed," or "licensed premises" as the building or the part of the building on the application where low alcohol content beverages are sold or offered for sale and also includes outside areas where beverages with low alcohol content are regularly sold or served when the applicant or permit holder owns or has a bona fide written lease of the property.

(Amends R.S. 26:241(14))
