HB 42 will have the following effects on fiscal costs and revenues related to other government entities during the five year measurement period.

2. Expenditures:

There will be some initial savings to ROVERS of up to \$189,673 for board expenses (\$31,600) and other administrative expenses (\$158,073). These are itemized below.

The bill immediately eliminates the ROVERS board of trustees. The FY 18 budget for ROVERS board expenses is \$31,600 and includes per diems, continuing education, and travel. Therefore, there is anticipated to be an immediate saving to ROVERS of \$31,600.

The bill also transfers the administrative functions of ROVERS to LASERS within two years. The FY 18 budget for ROVERS administrative expenses is \$158,073 and includes expenses such as the salary for a part time Executive Director and part time office assistant, office supplies, office equipment, Internet service and security monitoring. Therefore, there is anticipated to be savings to ROVERS of \$158,073.

LASERS does not anticipate the need to hire additional staff to manage administrative functions of ROVERS; and all of the cost associated with administering the ROVER plan is anticipated to be absorbed through LASERS' existing budget. However, the LFO anticipates that there may be some indeterminable initial implementation costs to LASERS associated with the modification of its computer systems.

Note: The sources of revenue that fund the board and administrative expenses at ROVERS are employer and employee contributions and ad valorem taxes.

3. Revenues:

There is no anticipated direct material effect on governmental revenues as a result of this measure.
