EXPENDITURE EXPLANATION

There will be a one time expenditure increase for the Secretary of State associated with implementation of the proposed legislation.

The Secretary of State anticipates one-time development costs of \$28,000 to update voter registration reports, as well as programming changes to the Voter Registration system and the Office of Motor Vehicles interface. This is to allow for individuals under an order of imprisonment for a conviction of a felony, who have not been incarcerated pursuant to the order within the last five years to be eligible to register to vote or reinstate registration. The Secretary of State plans to utilize an existing contract with GCR Inc. at a rate of \$100 per hour. The Secretary of State estimates a total of 280 man-hours will be needed to complete this project. To the extent multiple pieces of legislation are passed requiring the Secretary of State to contract out IT services beyond its current contract, additional resources may be required. The Secretary of State anticipates the work associated with the proposed legislation may be completed by January 1, 2019.

Additionally, the Secretary of State anticipates one-time costs of \$38,998 in order to edit and reprint forms and promotional materials which include information regarding voting laws. This would consist of replacing in-stock materials such as the voter's bill of rights poster which is displayed at all precincts, and edit and reprint the election day and early voting supply of applications required at all precincts, Registrar of Voter offices, NVRA agencies and the Office of Motor Vehicles. The Secretary of State would also have to provide training to NVRA agencies to inform them of the changes.
