DIGEST

SB 550 Original

2018 Regular Session

Colomb

Present law, relative to medical marijuana, requires that the levels of THC in any marijuana produced pursuant to present law be reduced to the lowest acceptable therapeutic levels available through scientifically accepted methods.

Proposed law requires that the levels of THC in any marijuana produced pursuant to present law be carefully monitored in order to ensure optimal therapeutic values for the medicines produced from any lawfully cultivated *Cannabis* plants.

Effective August 1, 2018.

(Amends R.S. 40:1046(I))
