2018 Regular Session

HOUSE BILL NO. 2

BY REPRESENTATIVE ABRAMSON

CAPITAL OUTLAY: Provides for the comprehensive Capital Outlay budget

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state  
3 government, state institutions, and other public entities; to provide for the designation  
4 of projects and improvements; to provide for the financing thereof making  
5 appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. The following sums or so much thereof as may be necessary are hereby  
8 appropriated out of any monies in the state treasury from the sources specified, from federal  
9 funds and self-generated revenues belonging to the state of Louisiana and/or collected by  
10 boards, commissions, departments, and agencies thereof, all for making capital outlay and  
11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July  
12 1, 2018, and ending June 30, 2019, subject to the conditions thereafter provided:

13 A project with funding payable from General Obligation Bonds Priority 1 indicates that  
14 the funding for the project includes the reauthorization of funding which was previously  
15 granted as a line of credit by the State Bond Commission in Fiscal Year 2017-2018. As used  
16 in this Section, the term "general obligation bonds" means state general obligation bonds or  
17 other evidences of indebtedness payable from the Bond Security and Redemption Fund. The  
18 amount set forth in this Section opposite each project, or so much thereof as may be  
19 necessary, is hereby appropriated and payable from the source of funding indicated;  
20 provided, however, amounts appropriated and payable from federal funds may be  
21 encumbered or expended only to the extent such amounts shall have been committed or

1 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,  
2 construction, and major repair projects appropriated by this Act may be retained until  
3 completion of the project, even if no bona fide liability exists on the last day of the fiscal  
4 year.

5 This Act shall constitute the comprehensive state capital outlay budget for the 2018-2019  
6 Fiscal Year. Projects set forth which are payable from the proceeds available from the sale  
7 of general obligation bonds shall have the priorities as indicated. The Request for Line of  
8 Credit form used by the attorney general and Bond Counsel in evaluating Louisiana  
9 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed  
10 with the commissioner of administration, State Bond Commission, and state attorney  
11 general. No general obligation bonds shall be sold, nor cash lines of credit granted to fund  
12 any lower priority project prior to the sale of general obligation bonds or the granting of cash  
13 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter  
14 provided. This prohibition against funding a lower priority project shall not apply upon a  
15 showing of an impossibility or impracticality either to proceed with all unfunded higher  
16 priority projects or to proceed with the funding of such projects or any part thereof through  
17 the issuance of general obligation bonds for any reason. Such showing shall be stated in  
18 reasonable detail in a certificate or certificates signed by the state agency responsible for  
19 administering the funding, and filed with the commissioner of administration and the State  
20 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by  
21 the Commission that proceeding with such a project or the funding thereof through the  
22 issuance of general obligation bonds is impractical or impossible, the Commission may then  
23 proceed with the sale of general obligation bonds or the granting of cash lines of credit  
24 without regard to the priority of the unfunded projects determined to be impossible or  
25 impractical.

26 Upon recommendation by the state agency responsible for administering the funding, if  
27 it is determined at any time that proceeding with the project or with the funding thereof is  
28 no longer impossible or impractical, the State Bond Commission may rescind the certificate  
29 of impossibility or impracticality and may proceed with the project or with the issuance of  
30 general obligation bonds or the granting of cash lines of credit to fund the project.

1 Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"), upon  
2 reviewing certificates as described above and determining that proceeding with such project  
3 or the funding thereof through the issuance of general obligation bonds is impossible or  
4 impractical, may designate a lower priority for such project. The Board's determination and  
5 lower priority designation shall be submitted to the members of the legislature for their  
6 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the  
7 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of  
8 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written  
9 request of the appropriate legislators and agency, the Board determines that an adjustment  
10 to a project description originally set forth in such capital budget adopted by the legislature  
11 for a current fiscal year is necessary to correct a mistake in a project description, clarify a  
12 description, change the scope of a description, or make any other adjustment the Board  
13 deems necessary to implement the purpose of the project, such adjustment shall become  
14 effective only upon the approval by majority vote of the elected members of each house of  
15 the legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the  
16 Louisiana Revised Statutes of 1950.

17 If such approval is granted, notification by the chair or secretary of the Board of the  
18 results of the balloting shall be transmitted to the State Bond Commission, which may then  
19 proceed with the sale of general obligation bonds or the granting of cash lines of credit for  
20 each change approved upon request of the commissioner of administration in accordance  
21 with the general rule.

22 With respect to Priorities 1 through 5, a lower priority project may be moved to a higher  
23 priority only upon a showing of an emergency or other cause not reasonably anticipated by  
24 the legislature, which shall be stated in reasonable detail in a certificate signed by the head  
25 of the appropriate department, political subdivision, or agency and filed with the  
26 commissioner of administration and the Board. Upon a determination by the Board that such  
27 project should be moved to a higher priority because of an emergency or other cause not  
28 reasonably anticipated by the legislature, the Board shall designate a higher priority to the  
29 project. The matter then shall be submitted to and be subject to the same approval by the  
30 members of the legislature in the manner previously indicated in this Section. If such

1 approval is granted, notification by the chair or secretary of the board of the change of  
2 priority shall be transmitted to the State Bond Commission, which then upon request of the  
3 commissioner of administration, may proceed with the sale of general obligation bonds or  
4 the granting of cash lines of credit in accordance with the general rule. As to projects within  
5 a priority, the State Bond Commission acting on requests submitted by the commissioner of  
6 administration shall determine when such project, or phases thereof, shall be funded. In  
7 making such determination, the State Bond Commission shall consider the amount of  
8 proceeds of general obligation bonds to be made available in light of money and capital  
9 market conditions; the expenditure requirements of the project; the time required for  
10 architectural plans and drawings, public bidding, and site acquisition and preparation;  
11 availability of receipt of federal monies; litigation affecting the undertaking or completion  
12 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and  
13 other items of a similar nature bearing upon the possibility or the necessity to commence a  
14 project or any particular phase thereof.

15 Any other provision of this Act to the contrary notwithstanding, projects described in  
16 Priority 5 of this Act shall not be moved to a higher priority except upon one of the  
17 following conditions: (1) Funding is necessary to complete or additionally fund a project  
18 located elsewhere in the Capital Outlay Act. Determination of such condition shall be made  
19 by the head of the appropriate department or agency by means of a certificate to that effect  
20 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such  
21 change and if approved by a majority of each house of the legislature it shall be funded, or  
22 (2) unless required by an emergency or other cause not reasonably anticipated by the  
23 legislature, to be in accordance with procedures set forth in this Section. However, the State  
24 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which  
25 represents that portion of construction contracts which were let during a previous fiscal year,  
26 or construction contracts which will be let during the current fiscal year, but which will not  
27 require cash expenditures during the year. Such non-cash lines of credit, when combined  
28 with previously sold bonds or with higher priority bonds or lines of credit, or with funds  
29 appropriated from other sources, will provide sufficient appropriated funds to award

1 equipment or construction contracts. Contracts shall not be awarded without approval of the  
2 division of administration.

3       Upon approval by the State Bond Commission, and subject to compliance with its  
4 policies and procedures and the procedures set forth herein, a line of credit providing for the  
5 use of funds in anticipation of the sale of general obligation bonds may be granted to the  
6 appropriate administering agency or department from the Comprehensive Capital Outlay  
7 Escrow Account, or if there is not a sufficient amount available in such account, from other  
8 available state cash in the state treasury, for capital improvement projects for which bond  
9 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds  
10 for such projects, unless the attorney general advises that an impediment exists to the valid  
11 issuance of the bonds on the date such line of credit is granted.

12       All bonds that are to be repaid, in whole or in part, by revenues generated by the project  
13 shall be designated as "Reimbursement Bonds". The State Bond Commission shall enter  
14 into such agreements as are necessary to provide that the agency or subdivision, whose  
15 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption  
16 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as  
17 determined by the State Bond Commission.

18       Priority 1 general obligation bond funding shall be limited to:

19       (1) Projects and amounts which were previously authorized by Act 4 of the 2017 Second  
20 Extraordinary Session of the Legislature; and which were granted cash lines of credit by the  
21 State Bond Commission. The bonds to fund these projects were not sold in Fiscal Year  
22 2017-2018.

23       (2) The reauthorization of the portion of the outstanding Fiscal Year 2017-2018 Priority

15 Section 1.A. The projects in this Section did not submit a capital outlay request for  
 16 Fiscal Year 2018-2019 by November 1, 2017, in compliance with the provisions of Act 419  
 17 of the 2016 Regular Session of the Legislature and therefore these projects are not eligible  
 18 for cash or non-cash lines of credit for Fiscal Year 2018-2019. However, commitments have  
 19 been made against the lines of credit granted for these projects in Fiscal Year 2017-2018.  
 20 The appropriations made in this Section are intended to provide funding to satisfy  
 21 commitments made to certain projects against general obligation bond cash lines of credit  
 22 granted for appropriations in Act 4 of the 2017 Second Extraordinary Session of the  
 23 Louisiana Legislature and to provide funding for capital outlay budget requests applications  
 24 which were submitted after the November 1, 2017 deadline. However, because the projects  
 25 in this Section are not in compliance with the provisions of Act 419 of the 2016 Regular  
 26 Session of the Legislature, the appropriations for the projects in this Section require separate  
 27 statutory change to existing law in order to be eligible for cash and non-cash lines of credit  
 28 and therefore, the proposed appropriations for these projects are pending that effective  
 29 statutory change.

17           Section 2. The expenditure of funds appropriated in this Act, except appropriations  
 18 made to nonprofit economic development corporations, shall be in conformity to all existing  
 19 statutes relative to public bidding, contractual review, and R.S. 39:101 through 128 and any  
 20 other statutes affecting the capital outlay program for state government, state institutions,  
 21 and political entities. No contract shall be awarded for any project prior to the granting of  
 22 a line of credit or the sale of bonds by the State Bond Commission, determination by the  
 23 state treasurer that cash funding is available in the Comprehensive Capital Outlay Escrow  
 24 Account for the project, or delivery of revenue bonds whose issuance is authorized in  
 25 Section 1 of this Act.

26           Section 3. Payment for projects specified in this Act must be made by warrant  
 27 submitted to the division of administration, Department of Transportation and Development,  
 28 the state treasurer or other administering agency as provided in Section 8, whichever is  
 29 appropriate, only to the extent of funds required for immediate payment. Copies of invoices  
 30 or other supporting documentation shall be submitted with warrants. In the event that any  
 31 equipment included in this Act, is procured pursuant to the provisions of the State Lease-

 33 equipment shall not be appropriated. The provisions of R.S. 39:1771 which require

1 equipment to be leased under the State Lease-Purchase Act to be included in the executive  
2 budget and approved by the legislature through inclusion in the General Appropriation Act  
3 shall be considered waived upon the inclusion of such equipment in this Act. Projects  
4 contained in this Act may, at the direction of the division of administration and with the  
5 approval of the State Bond Commission, alternatively be funded through financing programs  
6 heretofore or hereafter provided by a public trust and public corporation duly organized

8 Government Environmental Facilities and Community Development Authority, pursuant to  
9 R.S. 33:4548.1 et seq.

10 Section 4. If at any time during the Fiscal Year 2018-2019, the governor should find,  
11 or the Joint Legislative Committee on the Budget or the commissioner of administration  
12 should report to the governor, that the receipts of the treasury are falling short or appear  
13 likely to fall short of the revenue estimates for the fiscal year and that a cash deficit is likely  
14 to be incurred, the governor shall take such steps as deemed necessary to prevent the  
15 occurrence of a cash deficit. In the event that a capital outlay project funded in this Act falls  
16 under an agency which is abolished or for which funds are not appropriated in the 2018-2019  
17 General Appropriation Act, then the funds appropriated in this Act for such capital outlay  
18 projects shall not be expended unless deemed necessary by the governor to protect life or  
19 property. In the event that legislation is enacted which transfers facilities or programs for  
20 which projects are funded in this Act, on behalf of one agency, institution, department, or  
21 management board to another agency, institution, department, or management board, then  
22 the projects in this Act shall be deemed transferred also.

23 Section 5. All monies appropriated by this Act and any applicable funds of a prior  
24 capital outlay budget act adopted by the legislature shall be deposited by the state treasurer  
25 in the Comprehensive Capital Outlay Escrow Account, established by this Section, in the  
26 state treasury. In accordance with R.S. 36:764, no later than sixty days following the end  
27 of each quarter, the state treasurer shall report to the Joint Legislative Committee on the  
28 Budget and the commissioner of administration, all funds contained in the Miscellaneous  
29 Fund of the Comprehensive Capital Outlay Escrow Account. Notwithstanding any  
30 provisions contained herein or other law to the contrary, any original issue premium or

1 accrued interest proceeds received pursuant to the sale of general obligation bonds shall  
2 remain on deposit to the credit of the Bond Security and Redemption Fund until such time  
3 as they may be utilized in accordance with U.S. Department of the Treasury Regulations  
4 promulgated pursuant to the Internal Revenue Code of 1986. All such monies shall be  
5 administered according to the particular act pertaining to the fiscal year in which such  
6 monies were appropriated. If it is determined by the director of the office of facility  
7 planning and control, division of administration, that the funds appropriated by this Act or  
8 any prior capital outlay budget act are not sufficient to complete the projects contained in  
9 any capital outlay budget act, through unavoidable deficiencies in appropriation, including  
10 administrative and legal requirements, the commissioner of administration, subject to  
11 approval of the Joint Legislative Committee on the Budget, may direct the use of interest  
12 earned from the investment of general obligation bond or note proceeds in the  
13 Comprehensive Capital Outlay Escrow Account, not to exceed an aggregate of five million  
14 dollars in any one fiscal year, for the purpose of completing the projects contained in any  
15 capital outlay budget act and such money shall be deemed appropriated in specific amounts  
16 necessary for such purpose. All appropriations in this Act which are made as additions to  
17 funds for previously authorized projects shall be included, for accounting purposes, in the  
18 account of the previously authorized projects. If it is determined by the director of the office  
19 of facility planning and control, division of administration, that it is cost effective and  
20 practical to combine individual appropriations, the commissioner of administration, subject  
21 to the approval of the Joint Legislative Committee on the Budget, may direct that two or  
22 more appropriations or parts thereof may be combined into a single project for accounting  
23 and audit purposes. The commissioner of administration may direct that funding in the  
24 various statewide and/or multiple parish projects for improvements for state facilities may  
25 be transferred to any project, in this Act or any previous Capital Outlay Act, which require  
26 supplemental funding for improvements for state facilities which qualify for funding through  
27 the various statewide and/or multiple parish projects for improvements for state facilities.  
28 The office of facility planning and control, division of administration is authorized to receive  
29 settlements and vendor rebates not in excess of \$50,000 unless approved by the Joint  
30 Legislative Committee on the Budget, and to add those receipts to the funding for projects

1 in this Act or any previous Capital Outlay Act for which project funds are received. The  
2 office of facility planning and control, division of administration is authorized to receive  
3 insurance payments and are hereby authorized to immediately repair facilities that suffer  
4 insurance losses without those projects being included in the Act and shall report to the Joint  
5 Legislative Committee on the Budget any expenditures from insurance funds received  
6 pursuant to this section. A portion, as determined by the commissioner of administration and  
7 not to exceed one percent (1%), of the funding for projects which qualify for the Percent for  
8 Art Program and not to exceed \$450,000 for an individual, qualifying project, may be  
9 transferred from the qualifying project budgets, to the Department of Culture, Recreation and  
10 Tourism for costs of acquiring art and administering the program. For all Percent for Art  
11 Program projects in this or any previous capital outlay, up to ten percent (10%) of the  
12 aforementioned one percent (1%) may be used for the costs of administering the projects.

13 Section 6. Prior to March 1, 2019, the commissioner of administration shall submit  
14 to the Joint Legislative Committee on Capital Outlay a list of projects that are completed and  
15 the cash balances remaining in each project.

16 Section 7. The commissioner of administration, with the approval of the Joint  
17 Legislative Committee on the Budget, is authorized to supplement or substitute the  
18 appropriations specified in this or previous capital outlay acts with any federal or other funds  
19 which are or may become available and such funds shall be deemed appropriated in specific  
20 amounts necessary for the purposes of this Act. Any funds received by the State Bond  
21 Commission as a result of a prepayment of reimbursement contracts as authorized by law  
22 and the policy and procedure for reimbursement contracts of the Department of Treasury,  
23 office of State Bond Commission, shall be deposited as set forth in such policy and  
24 procedure and shall be deemed available and appropriated in specific amounts necessary for  
25 the purposes of this Act pursuant to the procedure set forth in this section.

26 Section 8A. All of the funds herein appropriated, except for appropriations made to  
27 the Department of Military Affairs, the Legislature, the Louisiana Stadium and Exposition  
28 District, the Department of Economic Development, the Coastal Protection and Restoration  
29 Authority, the Division of Administration for Supplemental State Funds for Local

2 considered as having been appropriated directly to the Office of Facility Planning and  
3 Control, Division of Administration, and all projects herein authorized and funded shall be  
4 subject to the provisions of R.S. 39:101 through 128. All cooperative endeavor agreements  
5 for non-state entities shall be prepared by the Office of Facility Planning and Control and  
6 the Commissioner of Administration is hereby authorized and directed to effectuate any  
7 necessary transfer of funds from the Department of Justice to the Office of Facility Planning  
8 and Control in order to accomplish this purpose.

9 (1) Notwithstanding anything contained in this act to the contrary or any other  
10 provision of law, the appropriations made for the Louisiana Stadium and Exposition District  
11 shall be appropriated directly to the Louisiana Stadium and Exposition District, and are  
12 public purposes pursuant to the provisions of Article VII, Section 14 of the Constitution of  
13 Louisiana primarily for economic development, including the generation of tax revenue,  
14 creation of jobs, and the generation of tourism, and may be used to reimburse any  
15 expenditure made prior to the granting of a line of credit or the sale of bonds by the State  
16 Bond Commission, determination by the State Treasurer that cash funding has been  
17 deposited in the Comprehensive Capital Outlay Escrow Account for the project.

18 (2) The Louisiana Stadium and Exposition District may apply up to \$10,000,000 to
