Manager Actuarial Services

Bill Header: MUNICIPAL POL EMPS RET. Corrects language regarding average final compensation.

Cost Summary:

The estimated actuarial and fiscal impact of SB 7 on the retirement systems and their plan sponsors is summarized below. Actuarial costs pertain to estimated changes in the ***actuarial present value of future benefit payments***. Fiscal costs or savings pertain to changes to all cash flows over the next five year period including retirement system cash flows, OPEB cash flows, or cash flows related to other government entities.

An increase in actuarial costs is denoted throughout the actuarial note by "Increase" or a positive number. Actuarial savings are denoted by "Decrease" or a negative number. An increase in expenditures or revenues (fiscal impact) is denoted by "Increase" or a positive number. A decrease in expenditures or revenues is denoted by "Decrease" or a negative number.

Estimated Actuarial Impact:

The top part of the following chart shows the estimated change in the ***actuarial present value of future benefit payments and expenses***, if any, attributable to the proposed legislation. The bottom part shows the effect on cash flows.

Bill Information

Current Law

Current law specifically defines the term "average final compensation". With a few exceptions, term is used consistently throughout the System provisions. However, there are a few occurrences where the terms "final average compensation" and "average compensation" are used instead of the term "average final compensation".

Current law also provides that a disabled retiree will receive a benefit of 25% to 60% of his final average compensation. The percentage depends on the date of hire and the Subplan the disabled retiree is in, whether or not the disability occurred in the line of duty, and the number of years of service. However, any disabled retiree who is in a coma or paraplegic, or who is blinded or loses the total use of a limb solely as a result of injuries sustained from performing his official duties, and whose condition is certified by the State Medical Disability Board, will receive a benefit equal to 100% of his final average compensation.

Proposed Law

SB 7 replaces the terms "final average compensation" and "average compensation" wherever they occur in the System provisions with the term "average final compensation".

For members whose first date of employment making them eligible for membership in the system occurred before January 1, 2013, SB 7 also provides that any disabled retiree who suffers a traumatic physical injury causing permanent damage to the brain or spinal cord as a result of injuries sustained from performing his official duties, and whose condition is certified by the State Medical Disability Board, will receive a benefit equal to 100% of his average final compensation.

Implications of the Proposed Changes

SB 7 provides for uniform terminology in the System provisions, and prevents the possibility of misinterpreting the terms which are being replaced.

SB 7 will also provide greater disability benefits for a disabled retiree who suffers a traumatic physical injury causing permanent damage to the brain or spinal cord as a result of injuries sustained from performing his official duties. This change only applies to members whose first date of employment making them eligible for membership in the system occurred before January 1, 2013.

I. ACTUARIAL ANALYSIS SECTION

A. Analysis of Actuarial Costs
(Prepared by the LLA)

This section of the actuarial note pertains to actuarial costs or savings associated with the retirement systems, with OPEB, and with other government entities.

1. Retirement Systems

The actuarial cost or savings of SB 7 associated with the retirement systems is estimated to be an increase. Our analysis is summarized below.

Correcting the terminology does not have any effect on the cost of the system. However, SB 7 will increase the disability benefit payable when certain members of MPERS become disabled after suffering a traumatic physical injury causing permanent damage to the brain or spinal cord as a result of injuries sustained in the line of duty. SB 7 is expected to affect very few disabled retirees and the increase in actuarial cost is expected to be small.

2. Other Post-Employment Benefits (OPEB)

The actuarial cost or savings of SB 7 associated with OPEB, including retiree health insurance premiums, is estimated to be $0. Our analysis is summarized below.

The liability for post-retirement medical insurance protection provided to retirees is not affected by the corrections in terminology or by larger disability benefits.

3. Other Government Entities

The actuarial cost or savings of SB 7 associated with government entities other than those identified in SB 7, is estimated to be $0.

B. Actuarial Data, Methods and Assumptions
(Prepared by the LLA)

Unless indicated otherwise, the actuarial note for SB 7 was prepared using actuarial data, methods, and assumptions as disclosed in the most recent actuarial valuation report adopted by PRSAC. The data, methods and assumptions are being used to provide consistency with the actuary for the retirement system who may also be providing testimony to the Senate and House retirement committees.

C. Actuarial Caveat
(Prepared by the LLA)

There is nothing in SB 7 that will compromise the signing actuary's ability to present an unbiased statement of actuarial opinion.

II. FISCAL ANALYSIS SECTION

This section of the actuarial note pertains to fiscal costs or savings associated with the retirement systems (Table A), with OPEB (Table B), and with other fiscal costs or savings associated with government entities not associated with either the retirement systems or OPEB (Table C). Fiscal costs or savings in Table A include administrative costs associated with the retirement systems and the sponsoring government entities. The total effect of SB 7 on fiscal costs, fiscal savings, or cash flows is presented in Table D.

A. Estimated Fiscal Impact – Retirement Systems
(Prepared by the LLA)

1. Narrative

Table A shows the estimated fiscal impact of the proposed legislation on the retirement systems and the government entities that sponsor them. A fiscal cost is denoted by "Increase" or a positive number. Fiscal savings are denoted by "Decrease" or a negative number. A revenue increase is denoted by "Increase" or a positive number. A revenue decrease is denoted by "Decrease" or a negative number.

SB 7 will have the following effects on retirement related fiscal costs and revenues during the five year measurement period.

2. Expenditures:

   a. Expenditures from MPERS (Agy Self-Generated) will increase because there will be larger disability benefits paid.

   b. Expenditures from the Local Funds will increase because employer contribution requirements will increase.

3. Revenues:

   MPERS revenues (Agy Self-Generated) will increase since the employer contribution requirement will increase.

B. Estimated Fiscal Impact – OPEB
(Prepared by the LLA)

1. Narrative

   Table B shows the estimated fiscal impact of SB 7 on actuarial costs or savings associated with OPEB and the government entities that sponsor these benefit programs. Fiscal costs or savings in Table B include administrative costs associated with the government entity sponsoring the OPEB program. A fiscal cost is denoted by “Increase” or a positive number. Fiscal savings are denoted by “Decrease” or a negative number. A revenue increase is denoted by “Increase” or a positive number. A revenue decrease is denoted by “Decrease” or a negative number.

SB 7 will have no effect on OPEB related fiscal costs and revenues during the five year measurement period.

C. Estimated Fiscal Impact: Other Government Entities (unrelated to the retirement systems or OPEB)
(Prepared by Bradley Cryer, Assistant Legislative Auditor)

1. Narrative

From time to time, legislation is proposed that has an indirect effect on cash flows associated with other government entities, unrelated to the retirement systems or OPEB. Table C shows the estimated fiscal impact of SB 7 on such government entities. A fiscal cost is denoted by “Increase” or a positive number. Fiscal savings are denoted by “Decrease” or a negative number.
