SB 88 Engrossed

2019 Regular Session

Luneau

Present law provides that a medical treatment schedule is to be used in the medical care, services, and treatment in workers' compensation matters.

Present law provides that the medical treatment schedule shall be based upon guidelines which do all of the following:

- (1) Rely on specified, comprehensive, and ongoing systematic medical literature review.
- (2) Contain published criteria for rating studies and for determining the overall strength of the medical evidence.
- (3) Are current and the most recent version produced.
- (4) Are interdisciplinary and address the frequency, duration, intensity, and appropriateness of treatment modalities for all disciplines commonly involved in the care, services, or treatment provided to injured workers.
- (5) Are adopted by rule or statute.

Present law provides that deviations from the medical treatment schedule may be approved by the medical director or associate medical director of the office of workers' compensation. Present law further provides that any party may appeal the decision of the medical director or associate medical director by filing a "Disputed Claim for Compensation" form provided by the La. Workforce Commission. Present law further provides that the appeal will be heard by a workers' compensation judge and the decision may be overturned when it is shown, by clear and convincing evidence, that the decision of the medical director or associate medical director was not in accordance with the provisions of the medical treatment schedule as set forth in present law.

Proposed law retains present law but provides that the appeal of the decision by the medical director or associate medical director must be made within 45 days of the date of the issuance of the decision.

Effective August 1, 2019.

(Amends R.S. 23:1203.1(K))

Summary of Amendments Adopted by House

The Committee Amendments Proposed by House Committee on Labor and Industrial Relations to the engrossed bill:

1. Change the number of days for an appeal to be made on a decision rendered by the medical director or associate medical director from 30 days to 45 days of the issuance of the decision.
