

2020 Regular Session

HOUSE BILL NO. 684

BY REPRESENTATIVE WRIGHT AND SENATOR HEWITT

MOTOR VEHICLES: Provides relative to ignition interlock devices for DWI offenders

1 AN ACT

2 To amend and reenact R.S. 14:98.1(A)(2) and (3)(b) and 98.2(A)(2) and (3)(b), R.S.  
3 15:307(Section heading), (A), (C), (D), and (E), R.S. 32:378.2(A), (B)(1)(a)(ii), (aa),  
4 and (bb), 414(A)(1)(c), (i), (ii), and (D)(1)(b), 667(A)(introductory paragraph),  
5 (B)(1)(b), and (c), (3), (H)(3), and (I)(1), and 668(B)(1)(a)(introductory paragraph)  
6 and (i), and (c), and (2), and to enact R.S. 15:307(B)(3), (F), (G), and (H), 307.1,  
7 307.2, and R.S. 32:667(K), relative to ignition interlock devices; to provide for the  
8 calibration of ignition interlock devices; to provide standards for compliance with  
9 ignition interlock devices; to change references to criminal offenses for driving while  
10 intoxicated; to provide for a change in time periods that a driver is required to have  
11 an ignition interlock device; to provide relative to restricted driver's licenses; to  
12 provide for the addition of cameras to ignition interlock devices; to provide for an  
13 extension of time that a driver is required to have an ignition interlock device upon  
14 notice of a violation reset; to provide relative to first and second offense penalties for  
15 operating a vehicle while intoxicated; and to provide for related matters.

16 Be it enacted by the Legislature of Louisiana:

17 Section 1 R.S. 14:98.1(A)(2) and (3)(b) and 98.2(A)(2) and (3)(b) are hereby  
18 amended and reenacted to read as follows:

19 §98.1. Operating while intoxicated; first offense; penalties

20 A.

21 \* \* \*

1           (2)(a) If the offender had a blood alcohol concentration of 0.15 percent or  
2 more but less than 0.20 percent by weight based on grams of alcohol per one hundred  
3 cubic centimeters of blood, at least forty-eight hours of the sentence imposed  
4 pursuant to Paragraph (1) of this Subsection shall be served without the benefit of  
5 parole, probation, or suspension of sentence, and is to be served in addition to any  
6 sentence of imprisonment imposed pursuant to Subparagraph (1)(a) of this  
7 Subsection, provided that the total period of imprisonment upon conviction of the  
8 offense, including imprisonment for default in payment of a fine or costs, shall not  
9 exceed six months.

10           (b) In addition to any penalties imposed under this Section, upon conviction  
11 of a first offense violation of R.S. 14:98, if the offender had a blood alcohol  
12 concentration of 0.15 percent or more by weight based on grams of alcohol per one  
13 hundred cubic centimeters of blood, the driver's license of the offender shall be  
14 suspended for two years

15           (3)  
16   \*     \*     \*

17           (b) In addition to any penalties imposed under this Section, upon conviction  
18 of a first offense, if the offender had a blood alcohol concentration of ~~0.20~~ 0.15  
19 percent or more by weight based on grams of alcohol per one hundred cubic  
20 centimeters of blood, the driver's license of the offender shall be suspended for two  
21 years.

22   \*     \*     \*

23 §98.2. Operating while intoxicated; second offense; penalties

24           A.  
25   \*     \*     \*

26           (2)(a) If the offender had a blood alcohol concentration of 0.15 percent or  
27 more but less than 0.20 percent by weight based on grams of alcohol per one hundred  
28 cubic centimeters of blood, at least ninety-six hours of the sentence imposed

1           (3)(a) An ignition interlock device shall be calibrated for accuracy by using  
2           a dry gas alcohol standard with an alcohol reference value between .020 and .050  
3           g/210L.

4           (b) The calibration process shall consist of the following procedures:

5           (i) Prior to introducing a reference sample into a device, a three second purge  
6           must be expelled from the dry gas standard if using greater than six inches of open  
7           tubing.

8           (ii)(aa) For an "as found" check to introduce the sample into the device  
9           without an adjustment for accuracy, the test must be conducted prior to any  
10           adjustment for accuracy and the results must be recorded on the data logger.

11           (bb) The accuracy check shall consist of reference checks with the result of  
12           each individual check being within plus or minus 0.005 g/210L of the reference  
13           value introduced into the ignition interlock device.

14           (iii) Any ignition interlock device that does not pass calibration after  
15           adjustment shall be removed from service, and the serial number of the device kept  
16           on record for three years. An ignition interlock device removed from service for  
17           failing calibration shall only be placed back in service by the device's manufacturer  
18           if it meets the standards as provided for in this Chapter. All repairs shall be  
19           documented and kept in the record for three years.

20           C. The secretary shall formulate and promulgate a set of rules and  
21           regulations for the proper approval, installation, and use of ignition interlock device  
22           in full compliance with this Section and R.S. 15:306. The standards shall include,  
23           but not be limited to, requirements that the devices ~~or systems~~:

24           ~~(1) Do not impede the safe operation of the vehicle.~~

25           ~~(2) Correlate with established measures of alcohol impairment.~~

26           ~~(3) Work accurately and reliably in an unsupervised environment.~~

27           ~~(4) Resist tampering and give evidence if tampering is attempted.~~

28           ~~(5) Are difficult to circumvent.~~

29           ~~(6) Minimize inconvenience to a sober user.~~

1           ~~(7) Require a proper, deep lung breath sample or other accurate measure of~~  
2           ~~blood alcohol content equivalence.~~

3           ~~(8) Operate reliably over the range of automobile environments.~~

4           ~~(9) (1) Are manufactured by a party business entity ~~who~~ that will provide~~  
5           ~~product liability insurance and a bond against malfunction of the device.~~

6           (2) Are installed in such a manner that it shall not interfere with the normal  
7           operation of the vehicle after it is started.

8           (3) Protect against compromise or circumvention and preserves evidence of  
9           such activity.

10          (4) Are resistant to tampering.

11          (5) Have the ability to work reliably and accurately in an unsupervised  
12          environment.

13          (6) Are designed to permit a restart within three minutes of a stall or when  
14          the ignition has been turned off.

15          (7) Measure a person's breath-alcohol concentration by the delivery of a deep  
16          lung sample directly into the device.

17          (8) Prevent operation of the vehicle if the breath-alcohol concentration of the  
18          sample introduced into the device exceeds 0.02g of alcohol per 210L of breath.

19          (9) Ensure the automatic and complete purge of residual alcohol before  
20          allowing subsequent tests.

21          (10) Allow a minimum of 1200ml or 1.2L of breath for an acceptable breath  
22          sample.

23          (11) Require a random retest as follows:

24          (a) The first retest shall be required at a random variable interval within ten  
25          minutes of starting the vehicle's engine. Subsequent retests shall be required at a  
26          random variable interval ranging from ten to forty-five minutes from the previously  
27          requested test for the duration of the travel.

28          (b) The device shall allow five minutes for the retest to be completed during  
29          which the device will allow unlimited breath tests when a retest is in progress.

1           (c) The retest set point value shall be the same as the alcohol set point.

2           (d) A distinct audible or visual indicator shall come on to alert the driver that  
3           a retest is in progress. Once a retest is in progress, failure to deliver a breath sample  
4           below the alcohol set point within the time frame allowed shall:

5           (i) Activate the vehicle's horn to sound repeatedly, or activate a unique  
6           audible or visual indicator inside the passenger compartment of the vehicle until the  
7           engine is shut down.

8           (ii) Record a retest violation in the data storage system.

9           (iii) Disable the restart.

10          (e) If a circumvention is recorded, the random retest shall function as  
11          prescribed in Paragraph (C)(11) of this Section for the duration of travel.

12          (12) Include a supply of two disposable mouth pieces upon installation,  
13          designed to minimize the introduction of saliva into an ignition interlock device.

14          (13) Have all primary components, as identified by the Department of Public  
15          Safety and Corrections, office of state police, applied technology unit, with a unique  
16          serial number, which includes, but is not limited to, the storage device, handset, and  
17          camera.

18          (14) Enter a permanent lockout if the ignition interlock device has not been  
19          calibrated and serviced within a period of thirty-five days subsequent to its  
20          installation or last calibration or inspection, whichever occurs first.

21          (15) Uniquely identify and record the following:

22          (a) Each time the vehicle has a start attempt or is actually started.

23          (b) The results of all tests and retests violations.

24          (c) The length of time the vehicle was operated.

25          (d) Any indication of circumvention or tampering with the ignition interlock  
26          device or tests.

27          (16) On or before January 1, 2020, the secretary shall require a restricted  
28          operator to wait five minutes before attempting to start the vehicle a second or third

1 time, and thirty minutes prior to any subsequent attempts to start the vehicle after the  
2 initial start failure occurs.

3 (17) Visibly indicate to the user or any qualified person that:

4 (a) The unit is on.

5 (b) The unit is in need of service or calibration.

6 (c) Passage or failure of the breath alcohol content threshold on the breath  
7 sample introduced.

8 (d) The unit may augment visible signals or indications with audible ones or  
9 any other indication required by the department.

10 (18) Enter into violation reset if any of the following occurs:

11 (a) The restricted operator fails to have the ignition interlock device serviced  
12 within the time period described in this Section.

13 (b) Any circumvention is recorded by the device.

14 (c) The device has recorded any of the following, or any combination of the  
15 following, three or more times in a thirty day period:

16 (i) A random retest fail or skip.

17 (ii) An initial start failure prior to starting the vehicle unless a second breath  
18 test below the alcohol set point is recorded within ten minutes of the initial start  
19 failure.

20 (19) Enter into a permanent lockout within five days unless the device is  
21 serviced at a mobile or fixed site service center by an ignition interlock technician  
22 or calibration technician where it will be calibrated and downloaded if a violation  
23 reset occurs.

24 (20) Incorporate a camera as prescribed in this Section. The camera shall not  
25 distract or impede the driver in any manner from the safe and legal operation of the  
26 vehicle and shall:

27 (a) Encode a digital or photographic image of the vehicle driver including  
28 the time, date, and breath alcohol content level of all breath attempts. All images

1 and data shall be stored in the device's memory for a thirty day period to be  
2 downloaded and stored by the manufacturer for three years.

3 (b) Capture a digital image or photograph of the driver during the following  
4 circumstances:

5 (i) At the time a sample is introduced to start the vehicle.

6 (ii) Upon introducing a random retest sample.

7 (iii) When a violation reset condition is initiated.

8 (iv) Randomly at the discretion of the manufacturer.

9 (c) Produce a digital image, identifiable verification, or a photograph of the  
10 restricted driver in all lighting conditions including extreme brightness, darkness,  
11 and low light conditions.

12 D. The camera shall be required as follows:

13 (1) Any new ignition interlock device installation beginning January 1, 2020.

14 (2) All ignition interlock devices by March 31, 2020.

15 E.(1) The manufacturer, vendor, ignition interlock technician, or calibration  
16 technician shall notify the originating court of such violation reset conditions, if any,  
17 within five days of servicing the ignition interlock device. The manufacturer,  
18 vendor, ignition interlock technician, or calibration technician shall provide  
19 notification to the Department of Public Safety and Corrections, office of motor  
20 vehicles, and the Department of Public Safety and Corrections, office of state police,  
21 applied technology unit in an acceptable electronic format should the office of motor  
22 vehicles or the office of state police applied technology unit promulgate rules  
23 requiring such notification of a violation reset condition.

24 (2) In addition to any other information required by the office of motor  
25 vehicles, the office of state police, applied technology unit, or the originating court,  
26 all reports concerning a particular ignition interlock device shall include all of the  
27 following:

28 (a) The full name, address, and driver's license number of the restricted  
29 operator and lessee.

1           **(b) The registration number of the motor vehicle in which the ignition**  
2           **interlock device was installed.**

3           **(c) The unique serial number of the ignition interlock device.**

4           **(d) The toll free telephone number of a representative that can explain the**  
5           **report from an ignition interlock device.**

6           ~~D. F.~~ The secretary may adopt in whole or relevant part the guidelines, rules,  
7           regulations, studies, or independent laboratory tests performed or relied upon by  
8           other states, their agencies or commissions.

9           E. G. The secretary shall design and adopt by regulation a warning label  
10           which shall be affixed to each ignition interlock device upon installation. The label  
11           shall contain a warning that any person tampering with, defeating, or otherwise  
12           circumventing the device is guilty of a criminal offense and subject to criminal  
13           penalty and civil liability.

14           H. The deputy secretary is hereby authorized to set and collect fees in  
15           accordance with this Subsection applicable to the certification, renewal or  
16           recertification of ignition interlock devices, service centers, and technicians  
17           beginning September 1, 2019, unless otherwise specified in this Section.

18           (1) All fees described in this Section are nonrefundable and shall be remitted  
19           by the manufacturer, vendor, or service center to the office of state police, applied  
20           technology unit on or before the twenty-fifth day of each month.

21           (2) Fees established by the department shall be based on a calendar year and  
22           shall not exceed the following for each designated fee:

23           (a) One thousand dollars for an initial device certification.

24           (b) Five hundred dollars for an annual device certification renewal.

25           (c) Two hundred fifty dollars for an initial service center certification, when  
26           certified between January 1st and June 30th.

27           (d) One hundred twenty-five dollars for an initial service center certification,  
28           when certified between July 1st and December 31st.

29           (e) Seventy-five dollars for annual service center certification renewal.

1           (f) Fifty dollars for an initial ignition interlock technician certification.

2           (g) Twenty-five dollars for an annual ignition interlock technician  
3 certification renewal.

4           (h) Twenty-five dollars for an initial calibration technician certification.

5           (i) Ten dollars for an annual calibration technician certification renewal.

6           (j) Ten dollars for an installation verification form.

7           (k) Five dollars for a thirty day calibration.

8           (3) When the office of state police has performed a certification, renewal of  
9 certification, or received an installation verification fee or thirty day calibration fee  
10 for which special costs are assessed in accordance with this Section, such costs shall  
11 be forwarded, on or before the twenty-fifth day of each month following their  
12 collection, to the state treasurer for immediate deposit in the state treasury.

13           (4)(a) After compliance with the requirements of Article VII, Section 9(B)  
14 of the Constitution of Louisiana relative to the Bond Security and Redemption Fund  
15 and prior to monies being placed in the state general fund, the treasurer shall credit  
16 an amount equal to the total amount of such costs received to a special fund which  
17 is hereby created in the state treasury and designated as the Public Safety Ignition  
18 Interlock Regulation Fund. The monies in the fund shall be used solely to fund  
19 activities of the office of state police, applied technology unit in executing its  
20 responsibilities in the regulation of ignition interlock devices, service centers, and  
21 technicians, including the following:

22           (i) The purchase and maintenance of equipment and supplies.

23           (ii) Salaries and the cost to equip personnel responsible for certifying,  
24 inspecting, investigating, or otherwise regulating ignition interlock manufacturers,  
25 service centers, or technicians.

26           (iii) Training in the maintenance and usage of testing equipment.

27           (iv) Establishing and maintaining certification tests as required.

28           (v) Other such related expenses as may be necessary in the efficient and  
29 effective administration of those duties.

1           (b) The monies in the fund shall be used only in the amounts appropriated  
2           by the legislature. All unexpended and unencumbered monies in the fund at the end  
3           of the fiscal year shall remain in the fund. The monies in the fund shall be invested  
4           by the state treasurer in the same manner as monies in the state general fund. All  
5           interest earned on monies in the fund invested by the state treasurer shall be credited  
6           to the Public Safety Ignition Interlock Regulation Fund.

7           §307.1. Ignition interlock devices; standards; compliance

8           A. The Department of Public Safety and Corrections, office of state police,  
9           by rule shall:

10           (1) Provide standards for the certification, installation, repair, maintenance,  
11           monitoring, inspection, and removal of ignition interlock devices, as provided in R.S.  
12           15:307 and LAC 55:I.601 et seq., and equipment as provided in this Section.

13           (2) Inspect the records and equipment of manufacturers and vendors during  
14           regular business hours for compliance with related statutory provisions and rules and  
15           regulations.

16           (3) Suspend or revoke certification for any noncompliance.

17           B.(1) When an ignition interlock technician is found to be out of compliance,  
18           the installation privileges of that ignition interlock technician may be suspended or  
19           revoked until the ignition interlock technician comes into compliance. During any  
20           suspension or revocation period, the manufacturer or vendor is responsible for  
21           notifying affected customers of any changes in their service agreement.

22           (2) An ignition interlock technician, whose certification is suspended or  
23           revoked for noncompliance, has a right to an administrative hearing under R.S.  
24           49:950 et seq., to contest the suspension or revocation, or both. For the  
25           administrative hearing, the procedure and rules of evidence shall be as provided for  
26           in R.S. 49:950 et seq., except as otherwise provided in this Chapter. Any request for  
27           an administrative hearing shall be made in writing and received by the Department  
28           of Public Safety and Corrections, office of state police within twenty days after the  
29           receipt of the notice of suspension or revocation.

1           C.(1) An ignition interlock device shall employ:

2           (a) Fuel cell technology which is specific for alcohols.

3           (b) Other alcohol specific technology approved by the Department of Public  
4 Safety and Corrections, office of state police, applied technology unit, which meets  
5 National Highway Traffic Safety Administration’s model specifications for breath  
6 alcohol ignition interlock devices as published in the Federal Register, Volume 78,  
7 Number 89, including any amendments thereto.

8           (c) Technology capable of taking a photograph identifying the user providing  
9 the breath sample and recording the time the breath sample was provided.

10          (d) Technology capable of providing the global positioning coordinates at  
11 the time of each rolling retest refusal or circumvention when required by the  
12 originating court, the Department of Public Safety and Corrections, office of motor  
13 vehicles, or the Department of Public Safety and Corrections, office of state police,  
14 applied technology unit. The coordinates for events that result in a violation reset  
15 as defined in R.S. 15:307 shall be displayed within the data log that is downloaded  
16 by the manufacturer and shall be made available to the office of state police, applied  
17 technology unit, to be used for circumvention and tampering investigations.

18          (2) To be certified, an ignition interlock device shall:

19          (a) Meet or exceed the minimum test standards according to rules adopted  
20 by the office of state police, applied technology unit. Only a notarized statement  
21 from a laboratory that is accredited and certified under the current edition of the  
22 International Organization of Standardization 17025 standard for testing and  
23 calibration laboratories and is capable of performing the specified tests shall be  
24 accepted as proof of meeting or exceeding the standards set forth in the model for  
25 specifications for breath alcohol ignition interlock devices as published by the  
26 National Highway Traffic Safety Administration in the federal register. The  
27 notarized statement shall include the name and signature of the person in charge of  
28 the tests under the certification statement. The Department of Public Safety and  
29 Corrections, office of state police, applied technology unit shall adopt, by rule, the

1 required language of the certification statement that shall, at a minimum, outline that  
2 the testing meets or exceeds all specifications listed in the federal register adopted,  
3 by rule, by the Department of Public Safety and Corrections, office of state police,  
4 applied technology unit.

5 (b) Be maintained in accordance with the rules and standards adopted by the  
6 office of state police.

7 §307.2. Ignition Interlock Affordability; standards; compliance

8 A. The Department of Public Safety and Corrections, office of state police,  
9 by rule, shall provide standards and monitor compliance of an ignition interlock  
10 affordability plan for individuals required to install an ignition interlock device that  
11 demonstrate economic hardship.

12 B. Economic hardship shall apply to an individual required to have the  
13 ignition interlock device being eligible for the Supplemental Nutrition Assistance  
14 Program or Medicaid.

15 C. Individuals that meet the economic hardship standard shall be required  
16 to pay no more than fifty-percent of fees assessed by the ignition interlock service  
17 center for installation, monthly calibration, lease, and removal of the device;

18 D. Individuals that meet the economic hardship standard are responsible for  
19 any optional services an individual elects, fees related to any violation reset or  
20 permanent lockout as defined in R.S. 15:307, state mandated fees, and any costs  
21 related to damaged, missing or unreturned equipment, and recovery of such  
22 equipment.

23 E. Individuals become eligible for the affordability plan on the date that the  
24 individual provides the ignition interlock manufacturer, or ignition interlock service  
25 center, acceptable documentation verifying that the individual meets the standard for  
26 economic hardship. Continued eligibility may be verified at the discretion of the  
27 ignition interlock manufacturer or ignition interlock service center. Acceptable  
28 forms of documentation shall include an eligibility card or qualifying letter for the  
29 Supplemental Nutrition Assistance Program (SNAP) or Medicaid. If the

1 documentation does not name the individual required to install the ignition interlock  
2 device specifically, the individual shall be required to sign a notarized affidavit  
3 provided by the Department of Public Safety and Corrections attesting to his  
4 eligibility for SNAP or Medicaid on a state approved form.

5 F. An ignition interlock manufacturer or ignition interlock service center  
6 shall not refuse service to an individual that has demonstrated eligibility for the  
7 affordability plan in accordance with this Section.

8 G. An individual who feels that he has been refused service after providing  
9 the documentation required in this Section, to an ignition interlock manufacturer or  
10 ignition interlock service center, may file a complaint with the Department of Public  
11 Safety and Corrections, office of state police, applied technology unit. All  
12 complaints for refusal of service shall be investigated by the office of state police,  
13 applied technology unit within thirty days of receipt of the complaint.

14 H. If the investigation substantiates the refusal of service, the Department  
15 of Public Safety and Corrections, office of state police, applied technology unit may  
16 issue a warning, suspension, or revocation of the certification for the ignition  
17 interlock manufacturer or the ignition interlock service center based on the facts of  
18 the investigation and the history of such complaints related to the manufacturer or  
19 service center. An ignition interlock manufacturer or ignition interlock service  
20 center may appeal any suspension or revocation pursuant to this Section in  
21 accordance with R.S. 15:307.1(B)(2).

22 Section 3. R.S. 32:378.2(A), (B)(1)(a)(ii), (aa), and (bb), 414(A)(1)(c), (i),  
23 (ii), and (D)(1)(b), 667(A)(introductory paragraph), (B)(1)(b), and (c), (3), (H)(3),  
24 and (I)(1), and 668(B)(1)(a)(introductory paragraph) and (i), and (c), and (2) are  
25 hereby amended and reenacted and R.S. 32:667(K) is hereby enacted to read as  
26 follows:

1 §378.2. Ignition interlock devices; condition of probation for certain DWI  
2 offenders; restricted license

3 A. In addition to any other provisions of law and except as otherwise  
4 provided in Subsection I of this Section, the court may require that any person who  
5 is placed on probation as provided in ~~R.S. 14:98(B)~~ R.S. 14:98.1, and the court shall  
6 require that any person who is placed on probation as provided by ~~R.S. 14:98(C)~~ R.S.  
7 14:98.2 not operate a motor vehicle during the period of probation unless the vehicle  
8 is equipped with a functioning ignition interlock device as provided in this Section.

9 B.(1) Any person who has had his driver's license suspended, revoked, or  
10 canceled under any of the following conditions shall, upon proof to the Department  
11 of Public Safety and Corrections that his motor vehicle has been equipped with a  
12 functioning ignition interlock device as provided in this Section, be issued a  
13 restricted driver's license:

14 (a)

15 \* \* \*

16 (ii) However, if the offender had a blood alcohol concentration of ~~0.20~~ 0.15  
17 percent or more by weight based on grams of alcohol per one hundred cubic  
18 centimeters of blood the following restrictions shall apply:

19 (aa) Upon first offense, if the offender had a blood alcohol concentration of  
20 ~~0.20~~ 0.15 percent or greater, he shall be issued a restricted driver's license during the  
21 entire period of the two-year driver's license suspension imposed ~~under~~ pursuant to  
22 the provisions of ~~R.S. 14:98(K)(1)~~ R.S. 14:98.1(A)(3)(b) and shall be required to  
23 have a functioning ignition interlock device installed on his vehicle during the ~~first~~  
24 ~~twelve-month~~ entire period of the suspension.

25 (bb) Upon second offense, if the offender has a blood alcohol concentration  
26 of ~~0.20~~ 0.15 percent or greater, he shall be eligible for a restricted driver's license for  
27 the period of suspension as imposed under the provisions of ~~R.S. 14:98(K)(2)(b)~~ R.S.  
28 14:98.2(A)(3)(b). The offender may be issued a restricted license during the entire  
29 four years on his suspension and shall be required to have a functioning ignition

1 interlock device installed on his vehicle during the ~~first three years of the~~ four-year  
2 suspension.

3 \* \* \*

4 §414. Suspension, revocation, renewal, and cancellation of licenses; judicial review

5 A.(1)

6 \* \* \*

7 (c) Notwithstanding the provisions of Subparagraphs (a) and (b) of this  
8 Paragraph, upon first or second conviction, or a plea of guilty or nolo contendere and  
9 sentence thereupon or forfeiture of bail of any person charged with the offense of  
10 driving while intoxicated when the offender had a blood alcohol concentration of  
11 ~~0.20~~ 0.15 percent or more by weight based on grams of alcohol per one hundred  
12 cubic centimeters of blood, the following restrictions on suspension and issuance of  
13 a restricted driver's license shall apply:

14 (i) Upon first conviction, if the offender had a blood alcohol concentration  
15 of ~~0.20~~ 0.15 percent or greater, his driver's license shall be suspended for two years  
16 and he shall be issued a restricted driver's license for the entire period of the  
17 suspension after he has provided proof to the department that his motor vehicle is  
18 equipped with a functioning ignition interlock device. A functioning ignition  
19 interlock device shall remain installed on his vehicle during the ~~first twelve-month~~  
20 entire period of the suspension of his driver's license.

21 (ii) Upon second conviction, if the offender has a blood alcohol  
22 concentration of ~~0.20~~ 0.15 percent or greater, his driver's license shall be suspended  
23 for four years. The offender shall be eligible for a restricted license ~~after a period of~~  
24 ~~forty-five days of suspension for the remainder of~~ for the four-year period of  
25 suspension after he has provided proof to the department that his motor vehicle is  
26 equipped with a functioning ignition interlock device. A functioning ignition  
27 interlock device shall remain installed on his vehicle during the ~~first three-year~~  
28 ~~period of the~~ entire four-year period of the suspension of his driver's license.

29 \* \* \*

1 D.(1)

2 \* \* \*

3 (b) Any licensee who has had his license suspended for operating a motor  
4 vehicle while under the influence of alcoholic beverages under the provisions of this  
5 Subsection shall be eligible to apply for a restricted driver's license ~~after a period of~~  
6 ~~twelve months~~ upon proof that his motor vehicle has been equipped with a  
7 functioning ignition interlock device. The ignition interlock device shall remain on  
8 the motor vehicle for not less than ~~six~~ twelve months from the date the restricted  
9 driver's license is granted. In the event that the department fails or refuses to issue  
10 the restricted driver's license, the district court for the parish in which the licensee  
11 resides may issue an order directing the department to issue the restricted license  
12 either by ex parte order or after contradictory hearing.

13 \* \* \*

14 §667. Seizure of license; circumstances; temporary license

15 A. When a law enforcement officer places a person under arrest for a  
16 violation of R.S. 14:98 or ~~98.1~~ 98.6, or a violation of a parish or municipal ordinance  
17 that prohibits operating a vehicle while intoxicated, and the person either refuses to  
18 submit to an approved chemical test for intoxication, or submits to the test and the  
19 test results show a blood alcohol level of 0.08 percent or above by weight or, if the  
20 person is under the age of twenty-one, a blood alcohol level of 0.02 percent or above  
21 by weight, the following procedures shall apply:

22 \* \* \*

23 B.

24 \* \* \*

25 (1)

26 \* \* \*

27 (b) ~~On or after September 30, 2003, if~~ If the person submitted to the test and  
28 the test results show a blood alcohol level of 0.08 percent or above by weight, his  
29 driving privileges shall be suspended for ~~ninety~~ one hundred eighty days from the

1 date of suspension on first offense violation, ~~without eligibility for a hardship license~~  
 2 ~~for the first thirty days~~, and for three hundred sixty-five days from the date of  
 3 suspension, ~~without eligibility for a hardship license~~, on second and subsequent  
 4 violations occurring within five years of the first offense. If the person was under  
 5 the age of twenty-one years on the date of the test and the test results show a blood  
 6 alcohol level of 0.02 percent or above by weight, his driving privileges shall be  
 7 suspended for one hundred eighty days from the date of suspension.

8 (c) If the person submitted to the test and the test results show a blood  
 9 alcohol level of ~~0.20~~ 0.15 percent or above by weight, his driving privileges shall be  
 10 suspended for two years from the date of suspension on first offense violation and  
 11 for four years from the date of suspension for second offense violation.

12 \* \* \*

13 (3)(a) However, any licensee who has had his license suspended for a first  
 14 or second offense of operating a motor vehicle while under the influence of alcoholic  
 15 beverages under the provisions of this Subsection and who either refused to submit  
 16 to the test or who submitted to the test and the test showed a blood alcohol level of  
 17 less than ~~0.20~~ 0.15 percent shall, upon proof to the Department of Public Safety and  
 18 Corrections that his motor vehicle has been equipped with a functioning ignition  
 19 interlock device, be immediately eligible for and shall be granted a restricted license.  
 20 In the event that the department fails or refuses to issue the restricted driver's license,  
 21 the district court for the parish in which the licensee resides may issue an order  
 22 directing the department to issue the restricted license either by ex parte order or  
 23 after contradictory hearing.

24 (b) If the person submitted to the test as a result of a first violation and the  
 25 test results show a blood alcohol level of ~~0.20~~ 0.15 percent or above by weight, he  
 26 shall be eligible for a hardship license during the entire period of the imposed two-  
 27 year suspension after he has provided proof that his motor vehicle has been equipped  
 28 with an ignition interlock device. A functioning ignition interlock device shall

1 remain installed on his motor vehicle during the ~~first twelve-month~~ entire period of  
2 his driver's license suspension.

3 (c) If the person submitted to the test as a result of a second violation and the  
4 test results show a blood alcohol level of ~~0.20~~ 0.15 percent or above by weight, he  
5 shall be eligible for a hardship license during the entire four-year period of the  
6 suspension after he has provided proof that his motor vehicle has been equipped with  
7 an ignition interlock device. A functioning ignition interlock device shall remain  
8 installed on his motor vehicle during the ~~first three-years of the four-year~~ entire  
9 period of his driver's license suspension.

10 \* \* \*

11 H.

12 \* \* \*

13 (3) Paragraph (1) of this Subsection shall not apply to a person who refuses  
14 to submit to an approved chemical test upon a second or subsequent arrest for R.S.  
15 14:98 or 98.1 98.6, or a parish or municipal ordinance that prohibits driving a motor  
16 vehicle while intoxicated. However, this Paragraph shall not apply if the second or  
17 subsequent arrest occurs more than ten years after the prior arrest. The department's  
18 records of arrests made for operating a vehicle while intoxicated, as certified by the  
19 arresting officer pursuant to R.S. 32:666(B), shall be used to determine the  
20 application of the provisions of this Paragraph. In the event the suspension arising  
21 out of such arrest has been reversed or recalled including any reversal or recall as a  
22 result of an administrative hearing or judicial review, then that arrest related to that  
23 suspension shall not be used to determine if this Paragraph applies to a driver's  
24 license reinstatement.

25 I.(1) In addition to any other provision of law, an ignition interlock device  
26 shall be installed in any motor vehicle operated by any of the following persons  
27 whose driver's license has been suspended in connection with the following  
28 circumstances as a condition of the reinstatement of such person's driver's license:

1 (a) Any person who has refused to submit to an approved chemical test for  
2 intoxication, after being requested to do so, for a first, second, third, or subsequent  
3 arrest of R.S. 14:98 or ~~98.1~~ 98.6 or a parish or municipal ordinance that prohibits  
4 operating a vehicle while intoxicated and whose driver's license has been suspended  
5 in accordance with law.

6 (b) Any person who has submitted to an approved chemical test for  
7 intoxication where the results indicate a blood alcohol level of 0.08 percent or above  
8 and whose driver's license has been suspended in accordance with the law for an  
9 arrest for a violation of R.S. 14:98, 98.6, or a parish or municipal ordinance that  
10 prohibits operating a vehicle while intoxicated occurring within ten years of the first  
11 arrest.

12 (c) Any person who is arrested for a violation of R.S. 14:98, ~~R.S. 14:98.1~~  
13 98.6, or a parish or municipal ordinance that prohibits operating a vehicle while  
14 intoxicated and is involved, as a driver, in a traffic crash which involves moderate  
15 bodily injury or serious bodily injury as defined in R.S. 32:666(A).

16 (d) Any person who is arrested for a violation of R.S. 14:98, ~~R.S. 14:98.1~~  
17 98.6, or a parish or municipal ordinance that prohibits operating a vehicle while  
18 intoxicated and a minor child twelve years of age or younger was a passenger in the  
19 motor vehicle at the time of the commission of the offense.

20 \* \* \*

21 K. Upon notice to the department that a driver has caused the ignition  
22 interlock device to enter a violation reset or a permanent lockout, as defined in R.S.  
23 15:307, the department shall extend the period the ignition interlock device is  
24 required by an additional six months and further restrict the driver's license. The  
25 department shall notify the driver that his driver's license will be restricted for an  
26 additional six months.

27 §668. Procedure following revocation or denial of license; hearing; court review;  
28 review of final order; restricted licenses

29 \* \* \*

1 B.(1)(a) In a case of a first or second refusal or a first or second submission  
 2 to a test for intoxication, ~~and when there has been no prior suspension of the driver's~~  
 3 ~~license~~, if suspension is otherwise proper, upon a showing of proof satisfactory to the  
 4 department that an approved and functioning ignition interlock device has been  
 5 installed in the vehicle the person shall drive, and that the suspension of driving  
 6 privileges would prevent the person from earning a livelihood, the department may:

7 (i) Require the licensee to surrender his regular license, unless the license  
 8 was previously surrendered, and issue in its stead, at a cost to the person of fifty  
 9 dollars plus the cost of the license, a special restricted operator's license, designated  
 10 as such by a large red R printed on the face of the license, to be effective for the  
 11 remaining period of suspension.

12 \* \* \*

13 ~~(c) However, any licensee who has had his license suspended for a first or~~  
 14 ~~second offense of operating a motor vehicle while under the influence of alcoholic~~  
 15 ~~beverages under the provisions of this Subsection, shall, upon proof of need to the~~  
 16 ~~Department of Public Safety and Corrections, be immediately eligible for and shall~~  
 17 ~~be issued an ignition interlock restricted license sufficient to maintain livelihood or~~  
 18 ~~allow the licensee to maintain the necessities of life. In the event that the department~~  
 19 ~~fails or refuses to issue the restricted driver's license, the district court for the parish~~  
 20 ~~in which the licensee resides may issue an order directing the department to issue the~~  
 21 ~~ignition interlock restricted license either by ex parte order or after contradictory~~  
 22 ~~hearing.~~

23 (2) However, the department shall immediately cancel and seize the  
 24 restricted license upon receiving satisfactory evidence of the removal of the ignition  
 25 interlock device prior to the expiration of the license issued pursuant to this  
 26 Paragraph, of violation of the restrictions, and no person shall have driving privileges  
 27 of any kind for a period of six months from the receipt by the department of the  
 28 cancelled restricted license. No violation of Paragraph (B)(2) of this Section shall

Proposed law modifies present law by removing the present law requirements and mandating the rules and regulations include but are not limited to requiring the devices: (1) Are manufactured by a business entity that will provide product liability insurance and a bond against malfunction of the device, (2) Are installed in such a manner that it must not interfere with the normal operation of the vehicle after it is started, (3) Protects against compromise or circumvention and preserves evidence of such activity, (4) Are resistant to tampering, (5) Have the ability to work reliably and accurately in an unsupervised environment, (6) Are designed to permit a "restart" within three minutes of a stall or when the ignition has been turned off, (7) Measure a person's breath-alcohol concentration by the delivery of a deep lung sample directly into the device, (8) Prevent operation of the vehicle if the breath-alcohol concentration of the sample introduced into the device exceeds 0.02g of alcohol per 210L of breath, (9) Ensure the automatic and complete purge of residual alcohol before allowing subsequent tests, (10) Allow a minimum of 1200ml or 1.2L of breath for an acceptable breath sample, (11) Require random retests, (12) Include a supply of two disposable mouth pieces upon installation, designed to minimize the introduction of saliva into an ignition interlock device, (13) Have all primary components, as identified by the Dept. of Public Safety and Corrections, office of state police, applied technology unit, with a unique serial number, which includes, but is not limited to, the storage device, handset, and camera, (14) Enter a permanent lockout if the ignition interlock device has not been calibrated and serviced within a period of 35 days subsequent to its installation or last calibration or inspection, whichever occurs first, (15) Uniquely identify and record each time the vehicle has a start attempt or is actually started, the results of all tests and retests violations, how long the vehicle was operated, and any indication of circumvention or tampering with the ignition interlock device or tests, (16) On or before January 1, 2020, require a restricted operator to wait five minutes before attempting to start the vehicle a second or third time, and 30 minutes prior to any subsequent attempts to start the vehicle after the initial start failure occurs, (17) Visibly indicate to the user or any qualified person that the unit is on, the unit is in need of service or calibration, the passage or failure of the breath alcohol content threshold on the breath sample introduced, and any other indication required by the dept., (18) Enter into violation reset under certain conditions, (19) If a violation reset occurs, the device must enter into a permanent lockout within five days unless the device is serviced at a mobile or fixed site service center by an ignition interlock technician or calibration technician where it will be calibrated and downloaded, and (20) Incorporate a camera that does not distract or impede the driver in any manner from the safe and legal operation of the vehicle.

Proposed law requires a camera be installed on any new ignition interlock device beginning Jan. 1, 2020, and all devices by March 31, 2020.

Proposed law requires the manufacturer, vendor, ignition interlock technician or calibration technician to notify the originating court, if any, of violation reset conditions within five days of servicing an ignition interlock device.

Proposed law further requires the manufacturer, vendor or ignition interlock technician or calibration technician to provide notification to the Dept. of Public Safety and Corrections, office of motor vehicles, and the Dept. of Public Safety and Corrections, office of state police, applied technology unit in an acceptable electronic format.

Proposed law requires all reports to the originating court, Dept. of Public Safety and Corrections, office of motor vehicles, and the Dept. of Public Safety and Corrections, office of state police, applied technology unit include: (a) the full name, address, and driver's license number of the restricted operator and lessee, (b) the registration number of the motor vehicle in which the ignition interlock device was installed, (c) the unique serial number of the ignition interlock device, and (d) the toll free telephone number of a representative that can explain the report from an ignition interlock device.

Proposed law authorizes the deputy secretary to set and collect nonrefundable fees applicable to the certification, renewal or recertification of ignition interlock devices, service centers, and technicians.

Proposed law further provides the fees must be remitted to the manufacturer, vendor, or service center to the office of state police, applied technology unit on or before the 25<sup>th</sup> day of each month.

Proposed law requires special costs associated with an installation verification fee or 30 day calibration fee be forwarded on or before the 25<sup>th</sup> day of each month following their collection to the state treasurer for immediate deposit in the state treasury.

Proposed law requires the treasurer to create a special fund in the state treasury designated as the Public Safety Ignition Interlock Regulation Fund, and to credit an amount equal to the total amount of costs received after compliance with requirements of Article VII, Section 9(B) of the Constitution of Louisiana relative to the Bond Security and Redemption Fund.

Proposed law further requires the funds in the Public Safety Ignition Interlock Regulation Fund be used solely to fund activities of the office of state police, applied technology unit in executing its responsibilities in the regulation of ignition interlock devices, service centers and technicians.

Proposed law requires the Dept. of Public Safety and Corrections, office of state police to provide standards for the certification, installation, repair, maintenance, monitoring, inspection, and removal of ignition interlock devices in accordance with present law.

Proposed law requires a manufacturer or vendor to notify affected customers of any changes in their service agreement during any suspension or revocation period as a result of an ignition interlock device technician that is found to be out of compliance.

Proposed law grants an ignition interlock device technician the right to an administrative hearing pursuant to present law to contest the suspension or revocation, or both. Proposed law further provides standards for requesting a hearing, hearing procedure, and evidence.

Proposed law requires an ignition interlock device to employ: (a) fuel cell technology, specific for alcohols, (b) other alcohol specific technology approved by the Dept. of Public Safety and Corrections, office of state police, applied technology unit, which meets present law federal standards, (c) technology capable of taking a photograph identifying the user providing the breath sample and recording the time the breath sample was provided, and (d) technology capable of providing the global positioning coordinates at the time of each rolling retest refusal or circumvention when required by the originating court, the Dept. of Public Safety and Corrections, office of motor vehicles, or office state police, applied technology unit.

Proposed law requires an ignition interlock device meet or exceed the minimum test standards according to rules adopted by the office of state police, applied technology unit, and be maintained in accordance with the rules and standards adopted by the office of state police.

Proposed law requires the Dept. of Public Safety and Corrections, office of state police to provide standards and monitor compliance for ignition interlock affordability plans for individuals.

Proposed law provides that economic hardship is defined as an individual that is eligible for Supplemental Nutrition Assistance Program (SNAP) or Medicaid. Proposed law further provides that individuals that meet the economic standard will not be required to pay more than 50% of the assessed fees.

Proposed law provides that individuals that meet the economic hardship standard are responsible for any optional services an individual elects, fees related to any violation reset or permanent lockout as defined in present law, state mandated fees, and any costs related to damaged, missing or unreturned equipment and recovery of such equipment.

Proposed law provides that individuals become eligible for the affordability plan on the date that the individual provides the ignition interlock manufacturer or ignition interlock service center acceptable documentation verifying that the individual meets the standard for economic hardship.

Proposed law prevents an ignition interlock manufacturer or ignition interlock service center from refusing service to an individual that has demonstrated eligibility for the affordability plan in accordance with this proposed law.

Proposed law grants an individual who feels that they have been refused service after providing the documentation required under proposed law the right to file a complaint with the office of state police, applied technology unit. Proposed law further provides that all complaints must be investigated within 30 days of receipt of the complaint.

Proposed law provides that if the investigation substantiates the refusal of service, the office of state police, applied technology unit may issue a warning, suspension, or revocation of the certification for the ignition interlock manufacturer or service center based on the facts of the investigation and history of similar complaints related to manufacturer or service center.

Present law provides that the court may require any person placed on probation as provided for in R.S. 14:98(B) and must require any person placed on probation as provided in R.S. 14:98(C) not operate a motor vehicle during the period of probation unless the vehicle is equipped with a functioning ignition interlock device.

Proposed law changes the references in present law from R.S. 14:98(B) to 98.1 and from R.S. 14:98(C) to 98.2.

Present law provides that if an offender has a blood alcohol concentration of 0.20 percent or more by body weight on a first offense DWI, the offender must be issued a restricted driver's license for a two-year period and be required to have an ignition interlock device installed on his vehicle for the first 12 months of the two-year period.

Proposed law modifies present law by lowering the blood alcohol concentration threshold to 0.15 percent or more by body weight and requiring the ignition interlock device be installed for the entire two-year period.

Present law further provides that if an offender has a blood alcohol concentration of 0.20 percent or more by body weight on a second offense DWI, the offender must be issued a restricted driver's license for a four-year period and be required to have an ignition interlock device installed on his vehicle during the first three years of the four-year period.

Proposed law modifies present law by lowering the blood alcohol concentration threshold to 0.15 percent or more by body weight and requiring the ignition interlock device be installed for the entire four-year period.

Present law provides that upon a first conviction or a plea of guilty or no contest and the offender has a blood alcohol concentration of 0.20 percent or more by body weight, the offender must have his driver's license suspended for two years, receive a restricted driver's license for the entire period after proving that he has an ignition interlock device installed on his vehicle, which must remain installed for the first 12 months of the two-year period.

Proposed law modifies present law by lowering the blood alcohol concentration threshold to 0.15 percent or more by body weight and requiring the ignition interlock device be installed for the entire two-year period.

Present law further provides that upon a second conviction or a plea of guilty or no contest and the offender has a blood alcohol concentration of 0.20 percent or more by body weight, the offender must have his driver's license suspended for four years, receive a restricted driver's license after the first 45 days of the four-year suspension after proving that he has an ignition interlock device installed on his vehicle, which must remain installed for the first three years of the four-year period.

Proposed law modifies present law by lowering the blood alcohol concentration threshold to 0.15 percent or more by body weight and requiring the ignition interlock device be installed for the entire four-year period.

Present law grants eligibility for a restricted driver's license to any licensee who has had their license suspended for a DWI violation after a period of 12 months upon proof that his vehicle is equipped with an ignition interlock device. Proposed law requires the device remain on the vehicle for six months after issuance of the restricted driver's license.

Proposed law modifies present law by eliminating the 12 month waiting period for the restricted driver's license and requires the device remain on the vehicle for 12 months after issuance of the restricted driver's license.

Present law provides that on or after September 30, 2003, if a person has submitted to a breath alcohol concentration test and the test results show a blood alcohol level of 0.08 percent or above by weight, his driving privileges will be suspended for 90 days from the date of suspension on first offense violation, without eligibility for a hardship license for the first 30 days, and for 365 days from the date of suspension, without eligibility for a hardship license, on second and subsequent violations occurring within five years of the first offense.

Proposed law modifies present law by removing the enacting date, increasing the suspension for a first offense from 90 days to 180 days, removing the provision disallowing a person eligibility for a hardship license.

Present law provides that if a person has submitted to a breath alcohol concentration test and the test results show a blood alcohol level of 0.20 percent or above by weight, his driving privileges will be suspended for two years on a first offense violation and for four years on a second offense violation.

Proposed law modifies present law by lowering the blood alcohol concentration threshold to 0.15 percent or more by body weight.

Present law provides that any licensee whose license has been suspended for a first or second DWI offense and either refused to submit to the test or submitted to the test and the test showed a blood alcohol level of less than 0.20 percent must, upon proof that his motor vehicle has been equipped with a functioning ignition interlock device, be immediately granted a restricted license.

Proposed law modifies present law by lowering the blood alcohol concentration threshold to 0.15 percent or more by body weight.

Present law provides that if a person has submitted to the test as a result of a first violation and the test results show a blood alcohol level of 0.20 percent or above by weight, he will be eligible for a hardship license during the entire period of the imposed two-year suspension after he shows proof that his motor vehicle is equipped with an ignition interlock device, which must remain installed on his motor vehicle during the first 12 month period of his driver's license suspension.

Proposed law modifies present law by lowering the blood alcohol concentration threshold to 0.15 percent or more by body weight and requiring the device be installed for the entire period of suspension.

Present law provides that if a person has submitted to the test as a result of a second violation and the test results show a blood alcohol level of 0.20 percent or above by weight, he will be eligible for a hardship license during the entire four-year period of the suspension after he shows proof that his motor vehicle is been equipped with an ignition interlock device, which must remain installed on his motor vehicle during the first three-years of the four-year suspension.

Proposed law modifies present law by lowering the blood alcohol concentration threshold to 0.15 percent or more by body weight and requiring the device be installed for the entire period of suspension.

Present law provides that any person who has refused to submit to an approved chemical test for intoxication, after being requested to do so, for a second DWI arrest and whose driver's license has been suspended in accordance with law must have an ignition interlock device installed in their motor vehicle.

Proposed law modifies present law by extending this requirement to first, third, or subsequent arrests for DWI violations.

Present law provides that any person who has submitted to an approved chemical test for intoxication where the results indicate a blood alcohol level of 0.08 percent or above and whose driver's license has been suspended in accordance with law for an arrest occurring within 10 years of the first arrest must have an ignition interlock device installed in their motor vehicle.

Proposed law modifies present law by requiring the arrest be made for a violation of present law whether state or local.

Proposed law changes references in present law from R.S. 14:98.1 to 98.6.

Proposed law provides that upon notice to the dept. that a driver has caused the ignition interlock device to enter a violation reset or a permanent lockout, the dept. must extend the period the ignition interlock device is required by an additional six months and further restrict the driver's license. Proposed law further requires the dept. to notify the driver that his driver's license will be restricted for an additional six months.

Present law provides that in a case of first refusal or first submission to a test for intoxication and when there has been no prior suspension of the driver's license, if suspension is otherwise proper, upon proving to the dept. that the suspension of driving privileges would prevent the person from earning a livelihood, the dept. may require the licensee to surrender his regular license and issue, at a cost of \$50.00 plus the cost of the license, a special restricted operator's license to be effective for the remaining period of suspension.

Proposed law modifies present law by requiring the provision apply to a second offense, removing the requirement of no prior suspension, adding that an ignition interlock device be installed in the vehicle the person will drive, and requiring the licensee surrender his regular license unless it has been previously surrendered.

Present law provides that any licensee who has had his license suspended for a first or second DWI offense must, upon proof of need to the Dept. of Public Safety and Corrections, be issued an ignition interlock restricted license sufficient to maintain livelihood or allow the licensee to maintain the necessities of life.

Proposed law repeals present law.

Present law requires the dept. immediately cancel and seize the restricted license upon receiving satisfactory evidence of violation of the restrictions, and no person will have driving privileges of any kind for a period of six months from the receipt by the dept. of the cancelled restricted license.

Proposed law modifies present law by adding the removal of the ignition interlock device prior to the expiration of the restricted license as a reason for the dept. to cancel and seize a restricted driver's license. Proposed law further provides that no violation of present and proposed law will occur if the license is reinstated pursuant to present law prior to the removal of the ignition interlock device.

(Amends R.S. 14:98.1(A)(2) and (3)(b) and 98.2(A)(2) and (3)(b), R.S. 15:307(Section heading), (A), (C), (D), and (E), R.S. 32:378.2(A), (B)(1)(a)(ii), (aa), and (bb), 414(A)(1)(c), (i), (ii), and (D)(1)(b), 667(A)(intro. para.), (B)(1)(b), and (c), (3), (H)(3), and (I)(1), and 668(B)(1)(a)(intro. para.) and (i), and (c), and (2); Adds R.S. 15:307(B)(3), (F), (G), and (H), 307.1, 307.2, and R.S. 32:667(K))
