HB 819 Original

2020 Regular Session

Bagley

Abstract: Authorizes the recommendation of medical marijuana by a physician in treating traumatic brain injury and physician-diagnosed concussion.

Present law authorizes physicians who are licensed by and in good standing with the La. State Board of Medical Examiners to recommend medical marijuana for therapeutic use by patients clinically diagnosed as suffering from a debilitating medical condition. Defines "debilitating medical condition" to mean cancer, glaucoma, Parkinson's disease, positive status for human immunodeficiency virus, acquired immune deficiency syndrome, cachexia or wasting syndrome, seizure disorders, epilepsy, spasticity, severe muscle spasms, intractable pain, Crohn's disease, muscular dystrophy, multiple sclerosis, post traumatic stress disorder, and certain conditions associated with autism spectrum disorder.

Proposed law retains present law and adds to the list of debilitating medical conditions provided in present law traumatic brain injury and concussions diagnosed by a physician.
