Abstract: Requires the commissioner of agriculture to develop rules and regulations establishing the state's level of resources contributed in a cooperative agreement with a landowner under the La. Forestry Productivity Program.

Present law requires the commissioner to determine the extent of the state's involvement in each cooperative agreement but creates financial thresholds not exceeding 50% of the cost of the agreement or a total value of assistance of \$10,000 to any one landowner in a fiscal year.

Proposed law modifies present law by removing the financial thresholds and adding a requirement that the commissioner establish rules and regulations setting the state's level of involvement in the cooperative agreements with landowners.
