Bill Header: RETIREMENT/STATEWIDE SYS: Provides relative to enrollment of employees in the Firefighters' Retirement System or the Municipal Police Employees' Retirement System.

Cost Summary:

The estimated net actuarial and fiscal impact of this proposed legislation on the retirement systems and their plan sponsors is summarized below. Net actuarial costs pertain to estimated changes in the *net actuarial present value of future benefit payments and administrative expenses incurred by the retirement system*. Net fiscal costs or savings pertain to changes to all cash flows over the next five year period including retirement system cash flows, OPEB cash flows, or cash flows related to local and state government entities.

An increase in actuarial costs is denoted throughout the actuarial note by "Increase" or a positive number. Actuarial savings are denoted by "Decrease" or a negative number. An increase in expenditures or revenues (fiscal impact) is denoted by "Increase" or a positive number. A decrease in expenditures or revenues is denoted by "Decrease" or a negative number.

Estimated Actuarial Impact:

The top part of the following chart shows the estimated change in the *net actuarial present value of future benefit payments and expenses*, if any, attributable to the proposed legislation. The bottom part shows the effect on cash flows (i.e., contributions, benefit payments, and administrative expenses).

Bill Information

Current Law

Current law requires an employee who elects not to become a member of the Municipal Police Employees' Retirement System (MPERS) or the Firefighters' Retirement System (FRS) to execute and file an affidavit stating that his election not to be a member is of his own free will and is his own voluntary act and deed.

Current law also defines credited service as membership service rendered since last becoming a member.

Proposed Law

HB 13 requires the employer of an employee who elects not to become a member of MPERS or FRS, to enroll the employee in MPERS or FRS at the time of employment, and requires that the employee remain enrolled until he files the affidavit stating that his election not to be a member is of his own free will and is his own voluntary act and deed.

Implications of the Proposed Changes

HB 13 may slightly increase creditable service for employees who do not become members of the system immediately, then decide to become members. It may also encourage employees who were ambivalent about joining to stay in the system since they are already enrolled.

**2020 REGULAR SESSION
ACTUARIAL NOTE HB 13**

I. ACTUARIAL IMPACT ON RETIREMENT SYSTEMS AND OPEB [Completed by LLA]

**A. Analysis of Net Actuarial Costs
(Prepared by LLA)**

This section of the actuarial note pertains to net actuarial costs or savings associated with the retirement systems and with OPEB.

1. Retirement Systems

The net actuarial cost of the proposed legislation associated with the retirement systems is estimated to be a small increase. The actuary's analysis is summarized below.

An employee not wanting to become a member of FRS and MPERS will now be required to become a member until he files an affidavit stating that the election not to be a member is of his own free will and is his own voluntary act and deed. This will lead to more employees becoming members of MPERS or FRS, even if only for a short period of time. Some of these employees may decide to remain in the system after becoming members and to not file the required affidavit.

As a result, while there will likely be some amount of increase in future benefit payouts due to this proposed bill, the cost of these payouts is estimated to be a small increase.

2. Other Post-employment Benefits (OPEB)

The net actuarial cost or savings of the proposed legislation associated with OPEB, including retiree health insurance premiums, is estimated to be \$0. The actuary's analysis is summarized below.

The liability for post-retirement medical insurance subsidies provided to retirees cannot be determined without detailed information concerning each participating employer's own OPEB programs, if any. It is not known whether the OPEB programs of participating employers provide any subsidies (implicit or direct) to employees based on their membership in FRS or MPERS; thus, it is not known if this proposed legislation would have any effect on costs and liabilities for OPEB.

**B. Actuarial Data, Methods and Assumptions
(Prepared by LLA)**

Unless indicated otherwise, the actuarial note for the proposed legislation was prepared using actuarial data, methods, and assumptions as disclosed in the most recent actuarial valuation report adopted by the Public Retirement Systems' Actuarial Committee (PRSAC). The data, methods and assumptions are being used to provide consistency with the actuary for the retirement system who may also be providing testimony to the Senate and House retirement committees. With certain exceptions, the actuary for the LLA finds the assumptions used by the retirement systems and PRSAC to be reasonable.

**C. Actuarial Caveat
(Prepared by LLA)**

There is nothing in the proposed legislation that will compromise the signing actuary's ability to present an unbiased statement of actuarial opinion.

II. FISCAL IMPACT ON RETIREMENT SYSTEMS AND OPEB [Completed by LLA]

This section of the actuarial note pertains to fiscal (annual) costs or savings associated with the retirement systems (Table A) and with OPEB (Table B). Fiscal costs or savings in Table A include benefit-related actuarial costs and administrative costs incurred by the retirement systems.

**A. Estimated Fiscal Impact – Retirement Systems
(Prepared by LLA)**

1. Narrative

Table A shows the estimated fiscal impact of the proposed legislation on the retirement systems and the government entities that sponsor them. A fiscal cost is denoted by "Increase" or a positive number. Fiscal savings are denoted by "Decrease" or a negative number. A revenue increase is denoted by "Increase" or a positive number. A revenue decrease is denoted by "Decrease" or a negative number.

All expenditures for employer contributions are reflected on a single line in the table above. The actual sources of funding (e.g., Federal Funds, State General Fund) may vary by employer and are not differentiated on the table.

The proposed legislation will have the following effects on retirement related fiscal costs and revenues during the five year measurement period.

2. Expenditures:

- a. Expenditures by MPERS and FRS (Agy Self-Generated) are expected to increase slightly since more pension benefits will likely be paid to more members.
- b. The dollar amount of contributions by participating employers are expected to increase slightly, to the extent that more members elect to remain in MPERS or FRS, and slightly larger benefits are paid to members who would otherwise have delayed joining the system.

3. Revenues:

MPERS and FRS revenues (Agy Self-Generated) are expected to increase slightly since employer contribution requirements are expected to increase slightly.

**B. Estimated Fiscal Impact – OPEB
(Prepared by LLA)**

1. Narrative

Table B shows the estimated fiscal impact of the proposed legislation on actuarial benefit and administrative costs or savings associated with OPEB and the government entities that sponsor these benefit programs. A fiscal cost is denoted by “Increase” or a positive number. Fiscal savings are denoted by “Decrease” or a negative number. A revenue increase is denoted by “Increase” or a positive number. A revenue decrease is denoted by “Decrease” or a negative number.

The proposed legislation will have the following effects on OPEB related fiscal costs and revenues during the five year measurement period.

2. Expenditures:
No measurable effects.
3. Revenues:
No measurable effects.

III. FISCAL IMPACT ON LOCAL GOVERNMENT ENTITIES [Completed by LLA]

This section of the actuarial note pertains to annual fiscal costs, cost savings, and revenue impacts incurred by local government entities other than those included in Tables A and B. See Table C.

Estimated Fiscal Impact - Local Government Entities (other than the impact included in Tables A and B)
(Prepared by Bradley Cryer, Director of Local Government Services)

1. Narrative

From time to time, legislation is proposed that has an indirect effect on expenditures and revenues associated with local government entities (other than the impact included in Tables A and B). Table C shows the estimated fiscal impact of the proposed legislation on such local government entities. A fiscal cost is denoted by “Increase” or a positive number. Fiscal savings are denoted by “Decrease” or a negative number. A revenue increase is denoted by “Increase” or a positive number. A revenue decrease is denoted by “Decrease” or a negative number.

Actuarial Disclosure: Risks Associated with Measuring Costs

This Actuarial Note is an actuarial communication, and is required to include certain disclosures in compliance with Actuarial Standards of Practice (ASOP) No. 51. Risk disclosures otherwise required by ASOP No. 51 do not apply to this Actuarial Note because the proposed bill does not significantly change the types or levels of risks of the retirement system.

**2020 REGULAR SESSION
ACTUARIAL NOTE HB 13**

Information Pertaining to Article (10)(29(F) of the Louisiana Constitution

HB 13 contains a retirement system benefit provision having an actuarial cost.

Some members of the Firefighters' Retirement System or the Municipal Police Employees' Retirement System could receive a larger benefit with the enactment of HB 13 than what they would have received without HB 13.
