FEES/LICENSES/PERMITS EG DECREASE SG RV See Note Page 1 of 2  
Provides relative to fees charged to businesses by state agencies during a state of emergency (Items #2, 3, 32, and 35)

Proposed legislation exempts businesses that 1) had a physical and active operation in Louisiana as of 3/1/20; 2) had 50 or fewer full-time employees as of 3/1/20; 3) is not a subsidiary of a business with more than 50 full-time employees; 4) ceased operations or suffered an interruption in business due to COVID-19; and 5) is assigned a specific NAICS code; from the payment of any license renewal fee until 6 months after the termination of the COVID-19 public health emergency. The proposed legislation requires the Division of Administration (DOA) to submit a report to the Joint Legislative Committee on the Budget (JLCB) by 12/1/20 indicating each agency fee which has been exempted. JLCB may also further extend any fee exemption an additional six months. Effective upon signature of the Governor.

*Proposed amendment provides that the following fees do not apply for this exemption: 1) fees for weights and measures (R.S. 3:4622); 2) licenses, fees, and registrations for participating in racing (R.S. 4:169); 3) retail food establishment fees (R.S. 40: 31.37); and 4) fees chargeable to the Secretary of State (SOS) (R.S. 49:222). The proposed amendment also requires the Secretary of State to provide an application to businesses to apply for this exemption and also clarifies the language "license renewal fee".*

**EXPENDITURE EXPLANATION**

There will be an indeterminable decrease in the expenditures of certain state agencies and/or boards as a result of the fee waivers. These fees are classified as self-generated revenues and/or are deposited into statutorily dedicated funds and are budgeted by agencies/boards across state government to fund annual operating expenses, including oversight and administration of these impacted businesses. For some agencies/boards these revenue sources constitute the majority of certain program budgets, and they receive no state general fund support. For other agencies/boards the percentage of program budgets supported by these revenues is much smaller. Therefore, any reductions will have varying impacts on state agencies/boards. Out years reflect no impact because the LFO assumes the public health emergency declaration will expire in 2021.

Note: Some agencies reported that IT costs may increase as a result of adjusting their computer processes and systems due to declared emergencies and exemptions. However, it is unlikely that these IT costs would be larger than the loss of self-generated revenue from the fee waivers, resulting in a net decrease in expenditures.

In order to maintain existing operations, agencies would require an appropriation from the state general fund or an alternate means of finance.

**REVENUE EXPLANATION**

There will be a significant decrease in the revenue of multiple state agencies as a result of the exemption of license renewal fees. The impact could range from no impact to the elimination of a significant amount of fee revenue ordinarily collected. In addition, some agencies may lose federal funds without sufficient revenues to match grants.

*Proposed amendments provide clarification to the term "license renewal fee", which includes occupational licenses. The inclusion of occupational licenses will result in a decrease in revenue to some boards that regulate professions that fall under the NAICS codes listed in the proposed legislation.*

**Note:** Some agencies already have processes in place to take into account declared states of emergencies and adjust their billing collections, offer payment plans, and often waive late fees for businesses located within the area of the declared emergency.

There are 21 executive branch departments that impose fees. Numerous agencies may be impacted by this proposed legislation. For informational purposes, the following is a sampling of the responses received by the LFO as of 10/13/20.
