EXPENDITURE EXPLANATION

Proposed concurrent resolution is not likely to result in a material change in expenditures. Proposed concurrent resolution urges and requests that the Office of Community Development include certain expenditure categories (road and bridge; housing; and coastal protection and restoration efforts) as eligible expenses in the development of its Community Development Block Grant (CDBG) - Disaster Recovery Program Action Plans and amendments thereto.

Inclusion of these items in Disaster Recovery Program Action Plans and/or amendments will not result in additional funds being made available to the state, but may allow for a reallocation of planned expenditures under certain circumstances as allowed in the federal register notice. While this provision may impact initial expenditure allocations in future Disaster Recovery Program Action Plans, it may also impact existing allocations for prior Community Development Block Grants if remaining balances are reallocated to the enumerated uses if allowed. However, there are multiple instances of infrastructure, housing and coastal protection allocations in the existing Disaster Recovery Program Action Plans. Because these are already allowable expenses, there is no anticipated material change to expenditures.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
