SB 34 Engrossed

2020 Second Extraordinary Session

Peacock

Proposed law enacts the Audiology and Speech-Language Pathology Interstate Compact to take effect once adopted in 10 member states. Proposed law allows Louisiana to join a multistate compact which allows audiologists and speech-language pathologists to obtain multistate license privileges to practice in participating compact states, to decrease redundancies in the consideration and issuance of audiologist and speech-language pathologist licensure, and to provide opportunity for interstate practice by audiologists and speech-language pathologists who meet the uniform licensure requirements.

Proposed law provides that the compact facilitates the interstate practice of audiology and speech-language pathology to assist in improving public access to audiology and speech-language pathology services.

Proposed law provides that the compact encourages the multistate regulation of audiology and speech-language pathology practice, enhances exchange of licensure, investigative and disciplinary information among its members, allows for use of telehealth technology to facilitate increased access to audiology and speech-language pathology services, supports spouses of relocating active duty military personnel, and allows a remote state to hold a provider of services with a compact privilege in that state accountable to that state's practice standards.

Proposed law provides that active duty military personnel, or their spouses, shall designate a home state where the individual has a current license in good standing and that the individual may retain the home state designation during the period the service member is on active duty. Proposed law provides that subsequent to designating a home state, the individual shall only change their home state through application for licensure in the new state.

Proposed law provides for the establishment of a joint agency known as the Audiology and Speech-Language Pathology Commission and membership by representatives from compact states.

Proposed law provides for construction and severability.

Effective July 1, 2021.

(Adds R.S. 37:2678.1)

Summary of Amendments Adopted by Senate

Committee Amendments Proposed by Senate Committee on Health and Welfare to the original bill

1. Adds gross negligence as an exception to the limitation of liability.

Summary of Amendments Adopted by House

The Committee Amendments Proposed by House Committee on Health and Welfare to the engrossed bill:

1. Clarify that a license issued to an audiologist or speech-language pathologist shall be recognized by each member state where the licensee chooses to obtain license privilege.
