Provides relative to the sharing of certain student data

Proposed legislation expands the grades for which the governing authority of each public school must annually collect certain identifiable information from students to grades prekindergarten through twelve; adds family income and race and ethnicity to the list of data to be collected. Provides for the disclosure of personally identifiable data to entities other than those specifically listed in statute with written consent of the student's parent or guardian. Requires each public school to notify the parent or legal guardian of each student of the items of student information to be collected and that such information will be disclosed to LA postsecondary education institutions and the LA Office of Student Financial Assistance (LOSFA) for processing applications for admission and state and federal financial aid, and to the Board of Regents to be used for providing reports to the school governing authority and developing policies designed to improve student academic achievement.

| EXPENDITURES | 2021-22 | 2022-23 | 2023-24 | 2024-25 | 2025-26 | 5 -YEAR TOTAL |

| Annual Total | \$0 | \$0 | \$0 | \$0 | \$0 | \$0 |

EXPENDITURE EXPLANATION

There may be an indeterminable increase in local school expenditures as a result of this measure.

There is currently no universal method by which public schools can annually collect data on a child's family income. In some cases, income data can be obtained from applications for free or reduced-price lunches; however, a number of districts no longer collect these applications.

Schools will need to implement a new data-gathering mechanism, such as an annual family income form, and require students' parents or guardians to return it. The increase in cost and workload associated with this data-gathering is indeterminable. To the extent the prescribed information can be collected as part of annual data gathering efforts of the school districts, the potential workload and expenditure impact is expected to be nominal.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
