

## RÉSUMÉ DIGEST

**ACT 58 (SB 32)**

**2021 Regular Session**

**Cathey**

Prior law (R.S. 3:851 et seq.) authorized the commissioner of agriculture to sample and analyze agricultural products which are sold or traded upon the basis of content or lack of specified constituents.

New law retains prior law.

Prior law specifically excluded milk and other dairy products, cotton seeds, and soybeans from the agricultural products authorized to be sampled and analyzed by the commissioner.

New law repeals prior law exclusion.

Effective upon signature of the governor (June 4, 2021).

(Repeals R.S. 3:856)
