2022 Regular Session

Nelson

Abstract: Prohibits the promotion of certain students with reading deficiencies not remedied by the end of third grade; provides exceptions.

Proposed law provides that if a student has a reading deficiency that is not remedied by the end of the third grade as demonstrated by the student scoring at the lowest achievement level in reading on certain assessments, he shall not be promoted to the fourth grade. Requires public school governing authorities to notify parents and provide certain instructional services to third graders retained under these circumstances.

Proposed law provides for an exception that allows such students to be promoted to the fourth grade. Limits this exception to students who meet specific criteria and provides a process for determining if they are promoted. Requires public school governing authorities to provide certain instructional services to fourth graders promoted under these circumstances.
