HB 847 Original

2022 Regular Session

LaCombe

**Abstract:** Increases the maximum number of customers that a water system may service to qualify for the exemption from local match requirements for capital outlay projects and expands eligibility for the exemption to include sewer projects and natural gas utility service projects.

Present law requires the governor to submit a capital outlay budget which implements the first year of the five-year capital outlay program and the bond authorization bill for the sale of bonds to fund projects included in the bond portion of the capital outlay bill to the legislature no later than the eighth day of each regular session.

Present law requires non-state entities applying for capital outlay funding to provide a match of not less than 25% of the total requested funding amount with the following exceptions:

- (1) Projects deemed to be an emergency by the commissioner.
- (2) Projects for which a non-state entity has demonstrated its inability to provide a local match.

Proposed law retains present law.

Present law also provides for an exception from the 25% local match requirement for rural water systems that service less than 1,250 customers.

Proposed law changes the customer number limitation from less than 1,250 customers to 7,500 or fewer customers and changes eligibility from rural water systems to water and sewer systems.

Proposed law adds an exception to local match requirements for projects undertaken by a governmental entity to provide natural gas utility services to 7,500 or fewer customers.

Applicable to the funding of non-state entity projects included in the capital outlay budget for fiscal years commencing on or after July 1, 2022.

Effective upon signature of governor or lapse of time for gubernatorial action.
