TAX/LOCAL RE SEE FISC NOTE LF RV See Note Page 1 of 2

Authorizes parishes to contract with the Louisiana Sales and Use Tax Commission for Remote Sellers for the collection of local sales and use tax. (1/1/23)

Current law directs the LA Sales and Use Tax Commission for Remote Sellers to administer and collect remote sales tax for state and local jurisdictions as well as act as single auditor of remote state and local sales tax. The Commission retains 1% as a collection fee. The single local collector is also authorized to retain a distribution fee. Under current law, non-remote local sales tax is collected by the local taxing jurisdictions, except local motor vehicle sales tax and local hotel occupancy tax which are collected by the state and distributed to local taxing authorities.

Proposed law retains current law and expands the authority of the LA Sales and Use Tax Commission for Remote Sellers to also collect and audit non-remote state and local sales tax upon execution of a contract. The Commission collection fee of 1% is retained as is the local distribution fee and the state collection fee.

Effective January 1, 2023

**EXPENDITURE EXPLANATION**

The potential duties of the LA Sales and Use Tax Commission for Remote Sellers (RSC) are widely expanded to include non-remote state and local sales tax collection, administrative hearings and single audit requirements through a contract with the 63 single collectors and the state. However, the contract is on a voluntary basis and not mandated by a certain date. Thus, the actual timing and volume of responsibilities of the RSC are unknown and could range from nothing if no contracts are executed to highly material depending on the number of participants. In the bill, the RSC appears to be mandated to create a single sales tax form to accommodate all 63 parishes and state collections of all sales tax once the first contract is signed as long as initial funding is available, which is presumably provided by the existing RSC surplus fees from remote sales or state general fund.

**The bill authorizes a 1% collection fee for sales taxes collected for non-remote sales on behalf of state and local taxing authorities, which would presumably provide self-generated revenue to pay for any additional expenses once the program becomes operational. Initial expenses may require another means of finance, assumed to be RSC surplus fees from remote sales when and if a contract for RSC to collect is executed (see NOTE on page 2).**

(continued on page 2)

**REVENUE EXPLANATION**

The bill does not change tax liability for state and local sales tax, only the means of collecting taxes owed. The fiscal note makes no assumption about one entity's ability to collect or audit the same taxes as compared to another.

For those taxing authorities contracting with the RSC to collect non-remote state or local sales tax, a retention fee of 1% for the RSC will be deducted from remittances in the same manner as current remote sales tax collections. The 1% collection fee will become self-generated revenue for the RSC, presumably to pay collection and audit expenses, and will reduce state and local sales tax revenue, should a contract with RSC be executed. Any state and local distribution fees remain authorized and the state continues to retain a collection fee.

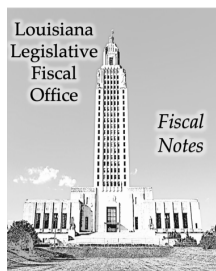

The revenue impact is anticipated on collections beginning in FY 25 when the RSC anticipates becoming operational but only to the extent that local taxing authorities enter into contractual arrangements with the RSC. However, RSC has the authority to delay implementation if funding is not available, but it is assumed that at least one of the 64 entities will opt in requiring initial funding in FY 24, assumed to be excess remote sales fees or state general fund.

<b>Subject:</b> Combines remote and non-remote sales tax collections		

**CONTINUED EXPLANATION from page one:**  
**EXPENDITURE EXPLANATION (continued)**

The anticipation of all entities contracting with RSC could require substantial additional resources, including a new system and staff prepared to handle an estimated 22,800 returns per month plus state returns. RSC also reports the need for systems to make daily payments and process paper returns. Cost estimates are preliminary and may face costs that are currently unknown since the RSC currently only handles remote sales tax collections with 3 employees. Single form creation is expected to take up to two years to become operational and initial expenses will be necessary to prepare for a contractual agreement that is allowed anytime after January 1, 2024, though the actual timing is uncertain.

<b>Cost estimates:</b>	<b>Year 1</b>	<b>Year 2</b>	<b>Year 3</b>	<b>Year 4</b>	<b>Year 5</b>
System initialization	\$2.1M				
System annual cost	\$1.9M	\$1.9M	\$1.9M	\$1.9M	\$1.9M
8 research analyst staff		\$0.5M	\$0.5M	\$0.5M	\$0.5M
Audit costs		\$0.4M	\$43.0M	\$43.0M	\$43.0M
<b>TOTAL</b>	<b>\$4.0M</b>	<b>\$2.8M</b>	<b>\$45.4M</b>	<b>\$45.4M</b>	<b>\$45.4M</b>

These estimates were provided by the RSC. The LFO can envision a scenario where these costs are substantially higher as collecting and auditing all sales tax for 63 entities and the state could require more resources than listed here, including administrative functions, taxpayer support and other overhead. However, all of these expenses are contingent upon participation.

The fiscal note includes no impact from state contracting with RSC for sales tax collections. LDR and presumably OMV indicate that all of the collection staff and infrastructure is in place at LDR, and it would be inefficient and costly to recreate it at RSC. Further, the state currently collects certain local taxes (occupancy, hotel/motel sales, vehicle sales) and would have to maintain the infrastructure to some degree even without state sales tax collections administered by the RSC.

NOTE: Fees from 1% of collections may not be available until the system becomes operational and then only to the extent that taxing authorities enter into contractual arrangements with the Commission. Any tax collectors contracting with the Commission could have a reduction in expenses as collection, administrative hearings and audit responsibilities for sales tax move to the RSC. Any shortfalls in funding are expected to require additional resources, presumably from the significant RSC surplus fee collections from remote sales, which is recurring.

*For informational purposes, the RSC is authorized within the Department of Revenue (R.S. 47:339, etal) but operates off-budget under the authority of the Commission members. The expenses in this bill will presumably be budgeted in the same manner.*
