HB 688 Engrossed

2022 Regular Session

Phelps

Abstract: Provides that teachers may appeal denied applications for sabbatical leave.

Present law provides relative to sabbatical leave for teachers employed by local public school boards.

Present law provides that any applicant who, at the expiration of the semester in which he applies, is ineligible for the sabbatical leave requested or who has not complied with present law, shall have his application rejected. Proposed law retains present law.

Present law provides that all other applicants may have their applications granted as long as the number of persons on sabbatical leave in a given school year does not exceed 5% of the total number of teachers employed in a given school system. Proposed law retains present law.

Present law provides that all decisions relative to the granting of sabbatical leave shall be made by the local superintendent. Proposed law retains present law but adds that if the superintendent denies an application, the teacher may appeal the decision to the school board and that any such appeal shall be submitted in writing to the president of the school board within 15 work-days after receipt of the denial. Provides that upon receipt of such appeal, the school board shall conduct a full hearing relative to the appeal at the next scheduled school board meeting, maintain a transcript of the proceedings, make a written recommendation for the disposition of the appeal, and provide a copy of the decision and the transcript to the applicant and superintendent within five work-days.

Present law and proposed law are applicable not only to certificated teachers but to any social worker, school counselor, school nurse, audiologist, educational diagnostician, speech-language pathologist, or school psychologist who holds the appropriate valid professional ancillary certificate issued by the state Dept. of Education.
