EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. Proposed law creates within the state treasury a marginal workload increase for the Department of Treasury, which can generally be absorbed with existing resources. However, to the extent other legislative instruments create additional workload, there may be material additional costs associated with the aggregate effort to administer these funds. The Treasury performs fund accounting, financial reporting, banking and custodial functions for 436 special funds. When unable to absorb additional workload with existing resources, the Treasury may need to add one T.O. position at a total personnel services cost of approximately \$73,000, plus approximately \$2,450 for a one-time purchase of office equipment. These expenditures are assumed to be SGF in this fiscal note.

REVENUE EXPLANATION

Proposed law removes provisions in present law that the Avoyelles Parish Local Government Gaming Mitigation Fund credit the Bond Security and Redemption Fund. To the extent the Avoyelles Parish Local Government Gaming Mitigation Fund credited the Bond Security and Redemption Fund, the proposed law will result in a nominal indeterminable revenue loss. Proposed law directs the state treasurer to immediately deposit all quarterly financial contributions received by the state of Louisiana under the provisions of the compact between the state and the Tunica-Biloxi Indian Tribe of Louisiana. Proposed law removes the provision that this fund "shall be subject to an annual appropriation by the legislature."
