Provides relative to extended sick leave for school bus operators and public school employees

Proposed legislation provides that school systems may offer up to 30 days of extended sick leave to school bus operators and other school employees (excluding teachers) for pregnancy-related illness, illness of an infant, or for required medical visits certified by a physician as relating to infant or maternal health if those employees have exhausted the 90 days of extended sick leave currently guaranteed to them by law and have no other sick leave remaining. This additional leave may be used every six years.

**EXPENDITURE EXPLANATION**

There may be an indeterminable increase in costs to local school districts to provide additional extended sick leave to school bus operators and other school employees (excluding teachers). The exact impact will vary across school districts and will be determined by the number of school bus operators and other eligible staff involved in qualifying events, the frequency of such events, the salaries and accrued leave of the individual taking leave, and the cost of substitute bus drivers. These employees will be paid 65% of their salaries while taking the extended leave.

In order to utilize the leave provided by the proposed legislation, employees must first exhaust their six-year allotment of 90 days of extended sick leave currently provided by law and have no other available sick leave remaining.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
