

RÉSUMÉ DIGEST

HR 17

2022 Regular Session

Geymann

New House Rule applies the procedures, outlined below, in the existing House Rule applicable to the appropriation of one-time money to the appropriation of federal disaster funds for ordinary recurring expenses unless:

- (a) Ordinary recurring expenses are not increased above amounts budgeted immediately prior to the federal declaration of the disaster or emergency.
- (b) The federal disaster funds are payable to the state on a reimbursement basis.
- (c) The Revenue Estimating Conference adopts a revised forecast that indicates that recurring revenues are sufficient to fully fund any increase in ordinary recurring expenses for the current fiscal year and at least the next two fiscal years.

Existing House Rule, relative to the appropriation of certain monies for ordinary recurring expenses, provides for certain motions and vote requirements to appropriate one-time money for ordinary recurring expenses as follows:

- (1) Provides that a motion, the effect of which is to finally pass an appropriation bill (except the General Appropriation Bill), which appropriates one-time money for ordinary recurring expenses shall not be in order unless immediately prior to such a motion, a separate motion to authorize such is adopted by a favorable vote of at least 2/3rds of the members present and voting.
- (2) Relative to a General Appropriation Bill that appropriates one-time money for ordinary recurring expenses, provides that a motion to resolve into the Committee of the Whole to hear the General Appropriation Bill shall not be in order unless immediately prior to such a motion a separate motion to authorize the use of one-time money for ordinary recurring expenses is adopted by a favorable vote of at least 2/3rds of the members present and voting. Further provides that a motion to concur in a General Appropriation Bill amendment or to adopt a conference committee report on a General Appropriation Bill which appropriates one-time money for ordinary recurring expenses shall not be in order, unless immediately prior to such a motion a separate motion to authorize the use of one-time money for ordinary recurring expenses is adopted by a favorable vote of at least 2/3rds of the members present and voting.
- (3) Requires the favorable vote of at least 2/3rds of the members present and voting to adopt a Committee of the Whole House amendment or a floor amendment which appropriates one-time money for ordinary recurring expenses.
- (4) Provides that a motion the effect of which is to finally pass an appropriation bill that appropriates one-time money for ordinary recurring expenses shall be in order without a separate prior motion authorizing the use of such money subject to both of the following conditions:
 - (a) The total recommended general operating appropriations contained in the executive budget for the fiscal year for which the appropriation is recommended are less than or equal to the total general operating appropriations for the existing operating budget of the current fiscal year included in the executive budget.
 - (b) Appropriations from one-time money for ordinary recurring expenses do not exceed the projected growth of the state general fund from the fiscal year for which the appropriation is proposed and the subsequent fiscal year according to the most recent official forecast.
- (5) Requires, prior to consideration of any appropriation bill on third reading and final passage, the Legislative Fiscal Officer to submit a report to the House as to whether the appropriation bill appropriates one-time money for ordinary recurring expenses. Prohibits consideration of an appropriation bill if such report has not been placed on

each member's desk. Further requires that, prior to adoption of any Committee of the Whole House Amendment, any floor amendment, and any conference committee report to an appropriation bill, and prior to concurrence in an amendment to an appropriation bill, the presiding officer, after giving due consideration to the advice of legislative staff, shall make a determination if the amendment or any amendment recommended by the conference committee, as the case may be, appropriates one-time money for ordinary recurring expenses.

- (6) Provides definitions including "ordinary recurring expenses" – as all expenses of a continuing or recurring character that in the normal course of administration may be expected to be necessary in approximately the same amounts each year.

New House Rule defines "federal disaster funds" as money received by the state from the federal government in response to and for recovery from a federally declared disaster or emergency.

Effective May 31, 2022.

(Amends House Rule 7.19)
