HB 453 Original

2023 Regular Session

Mack

Abstract: Requires that carbon dioxide injected for geologic sequestration using a Class VI injection well be transported to and sequestered in a storage facility in the Gulf of Mexico.

Present law authorizes and provides for carbon dioxide sequestration in the state.

Proposed law prohibits the use of a Class VI injection well for carbon dioxide sequestration unless the carbon dioxide is to be injected, transported, and sequestered in the Gulf of Mexico.
