HB 514 Original

2023 Regular Session

Mincey

Abstract: Requires the Amite River Basin District to put a proposition to the voters to approve an alternative use of drainage taxes collected pursuant to two previously approved drainage taxes for flood risk reduction.

Present law authorizes the Amite River Basin District board of commissioners to levy a tax on the Comite River Diversion Impact Area.

Proposed law retains present law and further provides that if the board wants to use taxes collected for localized or non-localized flood risk reduction uses not approved by the voters of the impact area, the board must submit a new proposition to the same voters for approval of a new purpose.
