HB 309 Engrossed

2023 Regular Session

Garofalo

Abstract: Provides that all insurers that are required to submit rating plans to the commissioner of insurance must provide credits and discounts.

Present law provides that any insurer required to submit rates and rating plans to the commissioner of insurance shall provide an actuarially justified discount, credit, rate differential, adjustment in deductible, or any other adjustment to reduce the insurance premium to insureds who build or retrofit a structure to comply with the requirements of the State Uniform Construction Code or the Insurance Institute for Business and Home Safety (IIBHS).

Proposed law adds that an insurer shall provide an actuarially justified discount, credit, rate differential, adjustment in deductible, or any other adjustment to reduce the insurance premium to insureds who build or retrofit a structure to comply with the requirements of the fortified home or fortified commercial standards created by IIBHS.

Present law provides that any insurer required to submit rates and rating plans to the commissioner of insurance shall provide an actuarially justified discount, credit, rate differential, adjustment in deductible, or any other adjustment to reduce the insurance premium to insureds who install mitigation improvements or retrofit their property utilizing construction techniques demonstrated to reduce the amount of loss from a windstorm or hurricane.

Proposed law makes technical changes.

Present law provides that after July 1, 2022, all insurers required to submit rating plans to the commissioner may, if actuarially justified, provide credits and discounts in compliance with the fortified home and fortified commercial standards created by the Insurance Institute for Business and Home Safety.

Present law further provides that any homeowner who is currently receiving discounts pursuant to present law may opt to maintain discounts offered prior to July 1, 2022, if the homeowner continues to meet the requirements to maintain such discounts, in lieu of the discount provided in this present law.

Proposed law repeals the effective date and mandates instead of authorizing such credits and discounts.

(Amends R.S. 22:1483(A), (B), and (C)(1))

Summary of Amendments Adopted by House

The Committee Amendments Proposed by House Committee on Insurance to the original bill:

1. Add that any insurer required to submit rates and rating plans to the commissioner shall provide an actuarially justified discount, credit, rate differential, adjustment in deductible, or any other adjustment to reduce the insurance premium to insureds who build or retrofit a structure to comply with the requirements of the State Uniform Construction Code or the fortified home or fortified commercial standards created by the Insurance Institute for Business and Home Safety.
2. Add that any insurer required to submit rates and rating plans to the commissioner shall provide an actuarially justified discount, credit, rate differential, adjustment in deductible, or any other adjustment to reduce the insurance premium to insureds who install mitigation improvements or retrofit their property utilizing construction techniques demonstrated to reduce the amount of loss from a windstorm or hurricane.
3. Add that the commissioner shall provide an actuarially justified discount, credit, rate differential, adjustment in deductible, or any other adjustment to reduce the insurance premium charged to any insured who builds or retrofits a structure to comply with the requirements of the fortified home and fortified commercial standards created by the Insurance Institute for Business and Home Safety.

4. Remove the authorization of an insured who is currently receiving discounts pursuant to present law to opt to maintain discounts offered prior to July 1, 2022.
5. Make technical changes.
