GAMBLING/CHARITABLE: Provides relative to licenses for certain raffle games

**Synopsis of Senate Amendments**

1. Provides that the prize value rather than the proceeds of the single games shall not exceed \$10,000.

**Digest of Bill as Finally Passed by Senate**

Proposed law provides for a limited raffle license for certain raffle games. Requires the office of charitable gaming within the Dept. of Revenue to promulgate rules relative to the issuance of such licenses.

Proposed law further provides that the provisions of present law (R.S. 4:705(2)(c)) and 714(F)(1)), relative to the establishment, assessment, and collection of certain fees and proceeds from gaming sessions deposited into a bank account, shall not apply to any limited license issued pursuant to proposed law.

Proposed law applies only to single raffle games as defined in present law (R.S. 4:707(A)(1)), and limits the prize value to \$10,000, instead of limiting the proceeds to \$10,000 as provided in present law.
