**EXPENDITURE EXPLANATION**

**The bill may increase local government expenditures by \$480,000 annually starting in fiscal year 2024 and \$984,000 annually by fiscal year 2028.**

According to information obtained from the Louisiana Assessors' Association, the Assessors' total statewide annual compensation for 2023 is \$9,599,000 (\$8,726,000 in total salaries + 10% of salary in expense allowance). Based on this information, the Assessors' total statewide annual compensation could increase to \$10,079,000 for fiscal year 2024 and further increase annually to \$10,583,000 by fiscal year 2028 if all Assessor Offices utilize the maximum 5% salary increases. This represents an increase in Assessor expenditures of \$480,000 per year starting in fiscal year 2024 and an increase in expenditures of \$984,000 per year by fiscal year 2028.

As explained by the Assessors' Association, the expenditure increases assume that all Assessors would accept and utilize the maximum 5% increases. However, Assessor's offices are not required to accept the increases in their annual salary, and some may not accept the increase or will accept a percentage less than the allowable limits. The numbers above represent the maximum potential impact.

**REVENUE EXPLANATION**

**There is no anticipated direct material effect on governmental revenues as a result of this measure.**
