

## **RÉSUMÉ DIGEST**

**HCR 108**

**2023 Regular Session**

**Willard**

Urges and requests the Dept. of Transportation and Development work with representatives from local political subdivisions and the La. Task Force on Contraflow and Sirens to study contraflow procedures, evaculanes, and siren systems used for natural and manmade disasters. Requires the study consider the cost of bridge repairs and the ability to expedite repairs on the Hwy. 90 evacuation route. Also requires the department provide a written report detailing its findings to the House and Senate transportation committees and the La. Task Force on Contraflow and Sirens by Feb. 1, 2024.
