**EXPENDITURE EXPLANATION**

There is no anticipated significant material effect on governmental expenditures as a result of this measure.

Local school districts may experience an increased workload related to the preparation of the annual report, required under proposed legislation, to be made to its special education advisory council. Proposed legislation additionally adds special education training to existing requirements for local school board members. This training requirement is not expected to increase governmental expenditures and can be provided by sources enumerated in the department's existing administrative rules by any of the following:

- (1) A Louisiana postsecondary education institution;
- (2) Instruction sponsored by the Louisiana Department of Education (LDOE);
- (3) In-service training programs conducted by a city, parish, or other local public school board central office or the Louisiana School Boards Association (LSBA) provided that the instruction and the method for demonstrating attendance are pre-approved by the LSBA; and
- (4) Training and instruction received at any conference presented by the National School Boards Association or by the Council of the Great City Schools, provided that verification of attendance by the school board member at any such training is obtained.

Proposed legislation requires the Board of Elementary and Secondary Education (BESE) to adopt rules providing for a dispute resolution process relative to complaints concerning behavioral health services in schools, and for an early resolution process for individuals to resolve disputes with local education agencies over special education issues. The LDOE reports they will apply existing dispute resolution processes to these new requirements.

The requirement that cameras in special education classrooms be installed within 90 days of parental request is not anticipated to have an impact on expenditures.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
